Routledge Handbook of Coaching Children in Sport Martin Toms, Ruth Jeanes, 2022-12-23 The Routledge Handbook of Coaching Children in Sport provides a comprehensive and extensive range of critical reflections of key areas impacting on children's sport and coaching up to the age of 16. With coaching-related chapters authored by academics across various disciplines including nutrition, psychology, pedagogy, medicine, youth development, and sociology, the text provides detailed reviews of the existing state of research and consideration of the implications of these particular factors upon parents, coaches, administrators, and clearly the young people themselves, as well as recommendations for future research. This new volume provides in-depth investigation to key topics of coaching, such as Learning and Child Development, Protecting Young Athletes, Talent Identification and Development, and Inclusive Coaching, and finally introduces a broad array of contextual considerations for coaches, from considering professional learning through to coaching in particular contexts. This book is more than simply an academic text and it offers insights that will further inform practice in children's sport coaching. The handbook is relevant for students, UG/PG researchers, academics, parents, coaches, and administrators, as well as those interested in children's sport coaching and the related topics therein. Self-Help in Mental Health T. Mark Harwood, Luciano L'Abate, 2009-11-24 Self-help is big business, but alas, not a scientific business. The estimated 10 billion that's spent each year on self-help in the United States is rarely guided by research or monitored by mental health professionals. Instead, marketing and metaphysics triumph. The more outrageous the miraculous cure and the revolutionary secret, the better the sales. Of the 3,000 plus self-help books published each year, only a dozen contain controlled research documenting their effectiveness as stand-alone self-help. Of the 20,000 plus psychological and relationship web sites available on the Internet, only a couple hundred
