and Child Care ,2000    **Web Forms: Costly Mistakes You Want to Avoid** Geoffrey Croft,2024-04-30 Every day we interact with web pages mobile applications Web Apps and for the past few years what are also known as PWAs Progressive Web Apps These artefacts that make up the rich world that the web has become all have at least one thing in common the forms that allow us to interact with its content its creators and many other people These forms have evolved quite a bit since the early days of the web The first sources I found during my research date back to an interface called Archie which offered a form for searching an index using FTP File Transfer Protocol on a local network Nothing that didn t involve a great deal of interaction with others With the Web Forms 1.0 standard many of the new features adopted around these forms then stagnated until the need for change arose with mobile usage particularly between 2008 and 2015 In fact the Web Forms 2.0 standard was first written in 2008 the same year that I started to become a professional in the web field The Web Forms 2.0 standard introduced with HTML 5 has brought us many new types of form fields e mail URL telephone etc as well as new APIs Application Programming Interface in JavaScript and continues to evolve today much faster than in the past Don t wait for a new version of HTML to update HTML is a Living Standard meaning that it has been constantly evolving since version 5. These technical developments these fields and other new features are designed to keep pace with changes in usage particularly in the habits of users of mobile devices such as smartphones and tablets but also to enhance the possibilities for interaction on all the devices we use today Despite all this progress it s not uncommon to find forms with a deplorable user experience How did we get to this point when technology is supposed to be helping us to improve the digital services we offer My answer in one sentence it s a gentle mix of responsibilities between customer service design and ergonomics accessibility and technology which is leading our users to a deterioration in their experience of our websites and more particularly our forms In other words user and customer experience is a multi stage multi stakeholder process that can be likened to a machine if a single cog doesn t do its job the whole process can go wrong How can we introduce a better level of experience for our visitors How can we monitor and measure this quality Between accessibility usability user experience and search user interface HTML and CSS let s take a quick look at the state of the art of web forms and how we can improve all of this    *The African Running Revolution* Dave Prokop,1975 The biggest story in track and field this past decade has been the astounding breakthrough of the African runners in international competition Here is the most complete and incisive book yet published Here is the most complete and incisive book yet published on this phenomenal success story What are the African runners really like and how do they approach competition It altitude training is the secret behind the success of the African runners as so many believe how is it that of all the people in the world who live at altitude the only high altitude dwellers who collectively have made any mark in the track world are runners from the East African tableland what explains the incredible success story of Kenya s Kalenjin and Kisii tribes who have accounted for all 45 of Kenya s Olympic and Commonwealth Games medals since 63 Kenya has more than 30 tribes in all Can the Kalenjin and Kisii be a race of super

runners genetically Is ther any scientific evidence to support the widely held theory that athletes living at high altitudes have a natural physiological advantage over sea level natives in the endurance running events These and a long list of other subjects are covered in this book by such writers s Philip Ndoos himself one of Kenya s finest runners John Manners Bob Hancock a coach on the 72 Olympic team Dr Jack Daniels Geoff Fenwick Dave Prokop and David Lewis Ben Jipcho s former coach A special bonus for readers will be Tom Sturak s in depth story on Filbert Bayi undoubtedly the most complete story yet written on the Tanzanian superstar Illustrated with numerous action photographs The African Running Revolution is a book no track fan should miss *Monthly Bibliography* United Nations Library (Geneva, Switzerland),1996 **AF Press**
