**American Cinema of the 2010s** Dennis Bingham,2021-12-10 The 2010s might be remembered as a time of increased polarization in American life. The decade contained both the Obama era and the Trump era and as the nation's political fissures widened so did the gap between the haves and have-nots. Hollywood reflected these divisions, choosing to concentrate on big franchise blockbusters at the expense of mid-budget films while new players like Netflix and Amazon offered fresh opportunities for low-budget and independent filmmakers. As the movie business changed, films ranging from *American Sniper* to *Get Out* found ways to speak to the concerns of a divided nation. The newest installment in the *Screen Decades* series, *American Cinema in the 2010s*, takes a close look at the memorable movies, visionary filmmakers, and behind-the-scenes drama that made this decade such an exciting time to be a moviegoer. Each chapter offers an in-depth examination of a specific year, covering a wide variety of films from blockbuster superhero movies like *Black Panther* and animated films like *Frozen* to smaller-budget biopics like *I, Tonya* and horror films like *Hereditary*. This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents taking American cinema in new directions.
