

Executive summary

The current consumer electronics market is experiencing unprecedented change—and with that change comes great opportunity. Together, phones and laptops are clearly poised to take a market leadership position and deliver quality, consistency, and innovation to their customers.

Increasingly, phones live life with their owners in hand. They are always on and always connected, so they require more than those devices—more power, more speed, more seamless integration. The industry challenge emerges: how to understand your customers, anticipate their future requirements, and deliver above their expectations.

That's why a phone-laptop partnership makes sense. No one in the consumer electronics market has a better understanding than Contoso of the long history of working innovation, relentless disruption, and sustainable growth. And no one in the market consistently responds through these changes and emerges to perform like Contoso.

Why Contoso?
