Microwave Remote Sensing Of Sea Ice:

Microwave Remote Sensing of Sea Ice ,1994 **Microwave Remote Sensing of Sea Ice** Frank D. Carsey,1992-04-08
Published by the American Geophysical Union as part of the Geophysical Monograph Series Volume 68 Human activities in the polar regions have undergone incredible changes in this century Among these changes is the revolution that satellites have brought about in obtaining information concerning polar geophysical processes Satellites have flown for about three decades and the polar regions have been the subject of their routine surveillance for more than half that time Our observations of polar regions have evolved from happenstance ship sightings and isolated harbor icing records to routine global records obtained by those satellites Thanks to such abundant data we now know a great deal about the ice covered seas which constitute about 10% of the Earth s surface This explosion of information about sea ice has fascinated scientists for some 20 years We are now at a point of transition in sea ice studies we are concerned less about ice itself and more about its role in the climate system This change in emphasis has been the prime stimulus for this book **Passive Microwave Remote Sensing for Sea Ice Research** ,1984 Techniques for gathering data by remote sensors on satellites utilized for sea ice research are summarized Measurement of brightness temperatures by a passive microwave imager converted to maps of total sea ice concentration and to the areal fractions covered by first year and multiyear ice are described Several ancillary observations especially by means of automatic data buoys and submarines equipped with upward looking sonars are needed to improve the validation and interpretation of satellite data The design and performance characteristics of the Navy s Special Sensor Microwave Imager expected to be in orbit in late 1985 are described It is recommended that data from that instrument be processed to a form suitable for research applications and archived in a readily accessible form The sea ice data products required for research purposes are described and recommendations for their archival and distribution to the scientific community are presented NTIS abstract **Passive Microwave Remote Sensing for Sea Ice Research** NASA Science Working Group for the Special Sensor Microwave Imager,1993 **Passive Microwave Remote Sensing for Sea Ice Research** NASA Science Working Group for the Special Sensor Microwave Imager,1984 Microwave Remote Sensing of Sea Ice Canada.
