## **Middle English Saints Legends Middle English Saints Legends:**

**Middle English Saints' Legends** John Scahill, Margaret Rogerson, 2005 Annotated bibliography covering two centuries of scholarly criticism on the extensive corpus of medieval saints legends with the assistance of Margaret Rogerson. Saints legends are being increasingly recognised as one of the most important genres of the middle ages and attract much critical attention. This volume surveys the scholarly literature of the nineteenth and twentieth centuries on the extensive Middle English corpus. It also provides a conspectus of the genre's history in the Middle English period and its place in the development of the modern discipline of Middle English while both the introduction and the annotations give attention to the problematic boundaries between genres and to the issues involved in separating out texts from their manuscript contexts. General studies of the corpus as a whole are covered as well as discussions and editions of individual legends of the various extended cycles of legends and of sermon collections that include hagiographic legends and exempla. The volume has been structured so as to provide an overview of the research on major works for example the South English Legendary and St Erkenwald and authors such as Osbern Bokenham, John Capgrave, William Caxton and John Mirk. It includes an Index of Scholars and Critics keyed to the Bibliography, an Index of Middle English Texts that covers all works of whatever genre mentioned in the annotations and an Index of Manuscripts that gathers the references to the over 170 manuscripts cited.

**Studies in Middle English Saints' Legends** Manfred Görlach, 1998 *Middle English Legends of Women Saints* Martha G Blalock, Wendy R Larson, Sherry L Reames, 2003-03-01 *Middle English Legends of Women Saints* presents a collection of saints' lives intended to suggest the diversity of possibilities beneath the supposedly fixed and predictable surfaces of the legends using multiple retellings of the same legend to illustrate that medieval readers and listeners did not just passively receive saints' legends but continually and actively appropriated them. The collection opens with legends about two royal or supposedly royal women, Frideswide and Mary Magdalen, and continues with those of three popular virgin martyrs: Margaret of Antioch, Christina of Tyre, and Katherine of Alexandria. The final portion of the collection is devoted to St Anne, mother of the Virgin Mary. The collection includes a number of relatively unknown texts that have not appeared in print since Horstmann's transcriptions in the nineteenth century and a few that have never before been published. **Saints'**

**Lives in Middle English Collections** Anne B Thompson, Robert K Upchurch, E Gordon Whatley, 2005-04-01 This volume is conceived as a complement to another Middle English Texts series text, Sherry Reames' *Middle English Legends of Women Saints*. This selection is intended to be broadly representative of saints' lives in Middle English and of the classic types of hagiographic legend as these were presented to the lay public and less literate clergy of late medieval England. **New Legends of England** Catherine Sanok, 2018-03-15 *New Legends of England* examines a previously unrecognized phenomenon of fifteenth century English literary culture: the proliferation of vernacular Lives of British Anglo-Saxon and other native saints. Catherine Sanok argues that these texts use literary experimentation to explore overlapping forms of secular

and religious community    **Middle English Legends of Women Saints** Sherry L. Reames,2003 Middle English Legends of Women Saints presents a collection of saints Lives intended to suggest the diversity of possibilities beneath the supposedly fixed and predictable surfaces of the legends using multiple retellings of the same legend to illustrate that medieval readers and listeners did not just passively receive saints legends but continually and actively appropriated them The collection opens with legends about two royal or supposedly royal women Frideswide and Mary Magdelen and continues with those of three popular virgin martyrs Margaret of Antioch Christina of Tyre and Katherine of Alexandria The final portion of the collection is devoted to St Anne mother of the Virgin Mary The collection includes a number of relatively unknown texts that have not appeared in print since Horstmann s transcriptions in the nineteenth century and a few that have never before been published    **Medieval English Saints' Legends** Klaus Sperk,1970    Medieval English saint's legends Klaus Sperk,1970

Marriage in Old and Middle English Saints' Legends Marc David Glasser,1977    *Her Life Historical* Catherine Sanok,2007-02-26 Her Life Historical offers a major reconsideration of one of the most popular narrative forms in late medieval England the lives of female saints and one of the period s primary modes of interpretation exemplarity With lucidity and insight Catherine Sanok shows that saints legends served as vehicles for complex considerations of historical difference and continuity in an era of political crisis and social change At the same time they played a significant role in women s increasing visibility in late medieval literary culture by imagining a specifically feminine audience Sanok proposes a new way to understand exemplarity the repeated injunction to imitate the saints not simply as a prescriptive mode of reading but as an encouragement to historical reflection With groundbreaking originality she argues that late medieval writers and readers used religious narrative and specifically the legends of female saints to think about the historicity of their own ethical lives

and of the communities they inhabited She explains how these narratives were used in the fifteenth century to negotiate the urgent social concerns occasioned by political instability and dynastic conflict by the threat of heresy and the changing status of public religion and by new kinds of social mobility and forms of collective identity Her Life Historical also offers a fresh account of how women came to be visible participants in late medieval literary culture The expectation that they formed a distinct audience for saints lives and moral literature allowed medieval women to surface in the historical record as book owners patrons and readers Saints lives thereby helped to invent the idea of a gendered audience with a privileged affiliation and a specific response to a given narrative tradition     The Divine Plan for Salvation in the Medieval Saints' Legends
