Minority Ethnic Mobilization In The Russian Federation:

Minority Ethnic Mobilization in the Russian Federation Dmitry P. Gorenburg, 2003-05-05 This book explains how state institutions affect ethnic mobilization. It focuses on how ethno nationalist movements emerge on the political arena, develop organizational structures, frame demands and attract followers. It does so in the context of examining the widespread surge of nationalist sentiment that occurred through the Soviet Union and Eastern Europe in the late 1980s and early 1990s. It shows that even during this period of institutional upheaval pre existing ethnic institutions affected the tactics of the movement leaders. It challenges the widely held perception that governing elites can kindle latent ethnic grievances virtually at will to maintain power. It argues that nationalist leaders can't always mobilize widespread popular support and that their success in doing so depends on the extent to which ethnicity is institutionalized by state structures. It shifts the study of ethnic mobilization from the whys of its emergence to the hows of its development as a political force.

Nationalism for the Masses Dmitry Primus Gorenburg, 1999 [Cultural and Linguistic Minorities in the Russian Federation and the European Union](#) Heiko F. Marten, Michael Rießler, Janne Saarikivi, Reetta Toivanen, 2015-01-06 This is the first comprehensive volume to compare the sociolinguistic situations of minorities in Russia and in Western Europe. As such it provides insight into language policies, the ethnolinguistic vitality and the struggle for reversal of language shift, language revitalization and empowerment of minorities in Russia and the European Union. The volume shows that even though largely unknown to a broader English reading audience the linguistic composition of Russia is by no means less diverse than multilingualism in the EU. It is therefore a valuable introduction into the historical backgrounds and current linguistic social and legal affairs with regard to Russia's manifold ethnic and linguistic minorities mirrored on the discussion of recent issues in a number of well known Western European minority situations.

Managing Ethnic Diversity in Russia Oleh Protsyk, Benedikt Harzl, 2013-05-07 This book provides a comprehensive overview of the norms and practices of ethnic diversity management in the Russian Federation in the last twenty years. It examines the evolution of the legal framework, the institutional architecture and the policies intended to address the large number of challenges posed by Russia's immense ethno cultural diversity. It analyses the legal, social and political changes affecting ethno cultural relations and the treatment of ethnic minorities and assesses how ethnic diversity both influences and is shaped by transformations in Russian politics and society. It concludes by appraising how successful or otherwise policies have been so far and by outlining the challenges still faced by the Russian Federation.

Tatarstan's Autonomy within Putin's Russia Deniz Dinç, 2021-12-13 This book explores how the Volga Tatars, the largest ethnic minority within the Russian Federation, a Muslim minority, achieved a great deal of autonomy for Tatarstan in the years 1988 to 1992 but then lost this autonomy gradually over the course of the Putin era. It sets the issue in context, tracing the history of the Volga Tatars, the descendants of the Golden Horde whose Khans exercised overlordship over Muscovy in medieval times and outlining Tsarist and Soviet nationalities policies and their enduring effects. It argues

that a key factor driving the decline of greater autonomy besides Putin's policies of harmonisation and centralisation was the behaviour of the minority elites who were despite their earlier engagement in ethnic mobilization very acquiescent to the new Putin regime deciding that co-operation would maximise their privileges **The Territories of the Russian Federation 2014** Europa Publications, 2014-03-05 This excellent reference source brings together hard to find information on the eighty three constituent units of the Russian Federation. The introduction examines the Russian Federation as a whole focusing on the evolution of the relationship between the central state and the regions followed by a chronology demographic and economic statistics and a review of the Federal Government. The second section comprises territorial surveys with a chapter on each of Russia's federal subjects each of which includes a current map. The third section comprises a select bibliography of books. The fourth section features a series of indexes listing the territories alphabetically by Federal Okrug and Economic Area. Users will also find a gazetteer of selected alternative and historic names a list of the territories abolished created or reconstituted in the post Soviet period and an index of more than 100 principal cities detailing the territory in which each is located **The Territories of the Russian Federation 2013** Europa Publications, 2013 This survey provides up to date and impartial information on an area which is seldom covered by reference books. An essential directory section provides full contact details on the leading political officials
