Misconceptions Truth Lies And The Unexpected On The Journey To Motherhood:

Misconceptions Naomi Wolf, 2011-06-08 Every year millions of women have their lives turned inside out by the experience of pregnancy A contemporary woman find herself caught in an absurd paradox while in the grip of one of the most primal lonely sensual and in some ways psychologically debilitating and physically dangerous experiences she is overwhelmed by invasive trivialising and infantilising cultural messages about what is happening to her and who really owns the experience

Misconceptions Naomi Wolf, 2003 **Recognising Postnatal Depression** Andrea Taub-Da Costa, 2012-09-28 The journey to motherhood is sometimes clouded with unrealistic expectations and society's unfair judgement of any woman who isn't immediately blissfully happy with her new baby Giving birth is a major life adjustment and rite of passage for all mothers This book is for anyone who is struggling or has struggled on that journey who may be grappling with confusion anxiety fear or anger It offers hope support and comfort and a clear path out of what may feel like a bewildering or overwhelming situation Postnatal depression affects around 30 per cent of mothers but partners children extended family friends and colleagues all feel its ripple effect and many mothers do not know or do not wish to acknowledge that this misunderstood illness can be treated just like any other Written by a medical doctor a clinical psychologist and their patient a writer each author contributes her own personal experience and expertise in the area of postnatal depression to an open and enlightening discussion of just what this illness is how to recognise it and ways to achieve recovery of body mind and spirit They call on health care professionals and society at large to respond timeously knowledgeably and with empathy to what is for many mothers a medical emergency Women from different walks of life agreed to share with the authors and now with the reader their tough yet transformational experiences of postnatal depression offering hope and encouragement and revealing the power of healing through openness and the telling of their stories

Motherhood In and After Prison Lucy Baldwin, 2022-07-05 *Motherhood In and After Prison* focuses on how imprisonment impacts incarcerated mothers maternal identity emotions and role It explores both the short and longer term consequences of sending mothers to prison It reveals the devastating and often underestimated impact of maternal imprisonment on mothers themselves on their children and on their families and their place in society Based on special access to mothers and grandmothers who were either still in prison or contributing post release this new book will be of considerable interest to policymakers educators practitioners researchers feminists and women's support groups It follows the author's acclaimed *Mothering Justice* It contains imprisoned mothers thoughts gained via first hand interviews and letters The book concludes with recommendations for positive change and improved informed responses to criminalised and imprisoned mothers relating to their lives before prison in prison and after prison including when renegotiating motherhood in the doubly triply quadruply deviant context of a convicted mother Packed with information data analysis and the women's own words the book will be of great interest to both a national and international audience Based on first hand accounts by imprisoned mothers grandmothers of their incarceration Deeply

probes their multi layered challenges A feminist matricentric tour de force With extensive new findings and recommendations Reviews This timely book beautifully educates without judgement and is a must read for policymakers and practitioners alike driving home a most critical message about the colossal and devastating impact of imprisoning mothers Lady Edwina Grosvenor From the Foreword

Not My Mother's Sister Astrid Henry, 2004-09-07 No matter how wise a mother's advice is we listen to our peers At least that's writer Naomi Wolf's take on the differences between her generation of feminists the third wave and the feminists who came before her and developed in the late 60s and 70s the second wave In Not My Mother's Sister Astrid Henry agrees with Wolf that this has been the case with American feminism but says there are problems inherent in drawing generational lines Henry begins by examining texts written by women in the second wave and illustrates how that generation identified with yet also disassociated itself from its feminist foremothers Younger feminists now claim the movement as their own by distancing themselves from the past By focusing on feminism's debates about sexuality they are able to reject the so called victim feminism of Catherine MacKinnon and Andrea Dworkin Rejecting the orthodoxies of the second wave younger feminists celebrate a woman's right to pleasure Henry asserts however that by ignoring diverse older voices the new generation has oversimplified generational conflict and has underestimated the contributions of earlier feminists to women's rights They have focused on issues relating to personal identity at the expense of collective political action Just as writers like Wolf Katie Roiphe and Rene Denfeld celebrate a new feminist hetero sexuality posited in generational terms queer and lesbian feminists of the third wave similarly distance themselves from those who came before Henry shows how 1970s lesbian feminism is represented in ways that are remarkably similar to the puritanical portrait of feminism offered by straight third wavers She concludes by examining the central role played by feminists of color in the development of third wave feminism Indeed the term third wave itself was coined by Rebecca Walker daughter of Alice Walker Not My Mother's Sister is an important contribution to the exchange of ideas among feminists of all ages and persuasions

Women, Mothers, Subjects Maura Sheehy, 2015-10-14 This collection drawn from twelve years of the influential journal *Studies in Gender and Sexuality* offers a groundbreaking advance in thinking and theorizing about what happens to women when they become mothers It explores how women are changed and shaped by interaction with their children and the cultural constructs about motherhood in which they are embedded Distinguished psychoanalysts philosophers feminists gender and cultural theorists explore the meeting place of cultural representations of motherhood maternal theory and mothers interacting in the clinical setting and with their children to illuminate how the process of becoming a mother creates and informs female subjectivity identity desire expression aggression ambition shame envy and relationships Contributors find mothers to be complex subjects negotiating rich hybrid identities that explode received notions of maternal and even female subjectivity in their complexity They create an exciting and very accessible new set of ideas and templates for thinking about mothers and women that will be of value to clinicians academics and mothers alike

This book was originally published as a special issue of *Studies in Gender and Sexuality* **Journal of the Association for Research on Mothering**, 2005 **American Book Publishing Record**, 2002 *In the Other Room* Fiona Nelson, 2009

Becoming a mother impacts every aspect of a woman's life. Often it is other mothers with whom a new mother is able to articulate debate and negotiate dimensions of her mothering experiences from the physical social aspects of pregnancy through the daily work of new mothering to the competing cultural constructions of motherhood. A diverse group of first time mothers discussed and examined their experiences with what many have called the 'mommies club'. Through interactions among mothers information resources and advice are shared hierarchies of authority within the community of mothers are established and women are given opportunities to explore and construct their maternal identities for example through the sharing of birth stories. This study reveals how essential valuable and complex are mothers' connections with other mothers and yet also how wrought and ambivalent these relationships can be. **BOOK JACKET** *Doula Care* Christine H. Current Contents. Arts & Humanities Institute for Scientific Information, 2001 **Women's Voices, Feminist Visions** Susan Maxine Shaw, Janet Lee, 2007 An introductory women's studies reader which offers various classic conceptual and experiential writings. It contains chapter introductions which provide background information on topics including explanations of key concepts and ideas and references to the subsequent reading selections **The British National Bibliography** Arthur James Wells, 2003 **After the Happily Ever After** Linda Rose Ennis, 2017 This book is about the two tiered system and invisible imbalance that operates within the framework of the family. It is about the fantasy of the happily ever after which the wedding industry promotes and Western society reinforces. Why are we hanging onto this faux happiness at the expense of our future well being? Why don't we wonder what happened after they lived happily ever after and if in fact they really do? What I hope to achieve by writing this book is to rattle the cage of young brides about to embark on this journey to talk about these issues with their future partners and to set the system up in a more equal way so no one is caught off guard if and when things crumble. It will be difficult to achieve this task because no one wants to think about things falling apart before the marriage even begins and most certainly it sours the sweetness of the fantasy of the happily ever after as we know it. What we don't realize is that there will be less bitterness and upset for the family especially for the children if we pursue this line of thinking. Isn't that the real happily ever after? *Ms. Magazine* Gloria Steinem, Robin Morgan, Joanne Edgar, Patricia Theresa Carbine, Nina Finkelstein, Letty Cottin Pogrebin, 2000-12 *The Making of a Mother* Valerie Raskin, 2007 Good mothers are not born that way they learn on the job. This groundbreaking book demonstrates the nine fundamental challenges a mom faces helping her identify and resolve them as she develops her parenting skills.
