Misinformation On The Internet Need To Know Library:

Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World Dalkir, Kimiz, Katz, Rebecca, 2020-02-28 In the current day and age objective facts have less influence on opinions and decisions than personal emotions and beliefs Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range However this creates an overall false balance as people tend to seek out information that is compatible with their existing views and values They deliberately seek out facts and data that specifically support their conclusions and classify any information that contradicts their beliefs as false news *Navigating Fake News Alternative Facts and Misinformation in a Post Truth World* is a collection of innovative research on human and automated methods to deter the spread of misinformation online such as legal or policy changes information literacy workshops and algorithms that can detect fake news dissemination patterns in social media While highlighting topics including source credibility share culture and media literacy this book is ideally designed for social media managers technology and software developers IT specialists educators columnists writers editors journalists broadcasters newscasters researchers policymakers and students *Fake News and Information Disorder in the Era of Advance Information Technology* Adeyinka Tella, Oluwole O Durodolu, 2025-09-01 Information pollution on a worldwide scale is a new phenomenon brought on by the advancement of modern advanced social information technology The long term effects of disinformation efforts are the most concerning because they are difficult to evaluate in terms of their direct and indirect effects Information disorder also known as misinformation disinformation and malinformation is currently wreaking havoc in our society It is defined as the spreading or development of inaccurate information with or without the aim to harm Due to the extensive harm it has already done on all of these levels politically economically culturally socially spiritually and even psychologically immediate action is required to stop the situation As a result the book *Fake News and Information Disorder in the Era of Advance Information Technology* is an effort to thoroughly examine information disorder its related challenges the role that libraries and other information organizations can play and to outline approaches to addressing information pollution

Information Literacy and Libraries in the Age of Fake News Denise E. Agosto, 2018-10-12 Going beyond the fake news problem this book tackles the broader issue of teaching library users of all types how to become more critical consumers and sharers of information As a public school or academic librarian or educator you can help library users to become more conscious and responsible consumers of information As you read you'll gain a better understanding and appreciation of the core concepts involved in promoting critical information literacy such as information ethics media literacy and civic education You'll also learn the history of fake news and come away with practical ideas in mind for strategies to apply in your library Chapters contributed by leading experts in public academic and school library services are written in plain everyday language that librarians and library school students can easily understand and relate to their own experiences

as information users especially their experiences in social media and other online venues where sharing false information takes only a click

How Do You Know? Gordon Barnes, 2021-10-06 How Do You Know explores problems of knowledge that arise in everyday life If you are not an expert how can you know that another person is an expert If experts are politically biased should you still trust them More generally how should you approach the testimony of other people treat it all as innocent until proven guilty or is that too simple Does the internet make us better knowers or is it just a minefield of misinformation Is it always irrational to believe a conspiracy theory Suppose someone just as intelligent and well informed as you are disagrees with you about something how should that affect your belief Can we have knowledge of what is right and wrong How Do You Know approaches these issues through the lens of social epistemology and via the preeminently social genre of philosophical dialogue Its characters think and speak like real people in the world today discussing and debating issues that are current practically relevant and even controversial while equipping readers with tools and concepts to see more clearly for themselves
