

A young boy with brown hair and a serious expression is the central figure. He is wearing a blue one-piece swimsuit and a pair of dark goggles with a strap, which are perched on his head. He is looking slightly to his left. In the background, another person is visible, out of focus, wearing a white shirt and dark shorts. The setting appears to be outdoors, possibly near a body of water or a park.

**Masculinities in Contemporary American Culture** Thomas Keith, 2017-01-12 *Masculinities in Contemporary American Culture* offers readers a multidisciplinary intersectional overview of masculinity studies that includes both theoretical and applied lenses. **The SAGE Handbook of Writing Development** Roger Beard, Debra Myhill, Jeni Riley, Martin Nystrand, 2009-07-09 Writing development is currently the focus of substantial international debate because it is the aspect of literacy education that has been least responsive to central government and state reforms. Teaching approaches in writing have been slower to change than those in teaching reading and pupil attainment in writing has increased at a much more modest rate than pupil attainment in reading. This handbook critically examines research and theoretical issues that impact on writing development from the early years through to adulthood. It provides those researching or teaching literacy with one of the most academically authoritative and comprehensive works in the field. With expert contributors from across the world the book represents a detailed and valuable overview of a complex area of study.

The author confronts issues in literacy attainment early literacy learning and transitions to formal schooling with a case study from Malta. The book includes the voices of young boys who experience formal education from the age of five and adds a fresh perspective to existing literature in this area. Drawing on empirical research the book traces the impact of foundational ideas of gender and early childhood and makes practical recommendations to help young children experience socially just literacy education. This timely text will be highly relevant for researchers educators and policymakers in the fields of literacy education early childhood education postcolonial education and children's rights.
