Missed Opportunities The Story Of Canadas Broadcasting Policy:

Missed Opportunities Marc Raboy,1990-05-01 Toward the end of his career Graham Spry used the phrase missed opportunities in reference to Canadian broadcasting Raboy shows which opportunities have been missed and clarifies the relationship between the evolution of Canadian broadcasting policy over the past sixty years and the changes in Canadian society during the same period

A Political Economy of Canadian Broadcasting David Skinner,2025-01-31 A Political Economy of Canadian Broadcasting takes readers from the days of the telegraph to the current digital age examining the role of public broadcasting in the wider context of regulation private capital and foreign programming This comprehensive history spans over a hundred years highlighting the shifting technological character of the media system within anglophone Canada and the key place of public broadcasting within it Situated in Canada s broader economic history David Skinner s account ably demonstrates how broadcast regulation has been derived from the historical relationships between the Canadian state and private capital and that this has tended to sideline its social goals The book concludes with suggestions for encouraging the creation of distinctively Canadian programming Coming just after the first major reform to Canada s broadcast legislation in three decades A Political Economy of Canadian Broadcasting is a timely contribution to the history of broadcasting and the policy discussions that frame it

Building New Bridges - Bâtir de nouveaux ponts Jeff Keshen,Sylvie Perrier,2005-06-30 Questions of methodology and the use of sources are fundamental to all academic disciplines In recent years this topic has become far more challenging as scholars are increasingly adopting an interdisciplinary approach to achieve richer and deeper analyses particularly in the humanities and social sciences Building New Bridges B tir de nouveaux ponts is a collection of scholarly papers that deals with the first principles of source identification and their effective utilization The contributors to the volume come from a wide range of disciplines and represent both French and English Canada Together they explore and encourage the interdisciplinarity trend around which considerable academic trepidation remains and seek to explain for example how historians and those in English or Lettres fran aises analyze texts how scholars approach paintings photography and film and how the study of music relates tempo and lyrics to wider societal trends They utilize their respective research to elucidate means of effectively employing evidences and methods to achieve richer deeper and more nuanced results As a whole the collection provides an excellent primer for scholars of methodology Published in English

Street Protests and Fantasy Parks David Cameron,Janice Gross Stein,Janice Stein,2002 The speed and intensity of global integration in the last two decades have provoked serious debate about the human impact of globalization and deep concern about the capacity of the state to provide social justice Street Protests and Fantasy Parks

focuses on two dimensions of globalization the cultural and social realities of global connection and the uneasily shifting role of the state While global processes are fusing societies and economies more deeply than ever before the editors argue that obituaries for the state are premature if not wholly inappropriate These essays examine a series of compelling case studies the entertainment industry citizenship social activism and wired communication to assess the choices states have and the consequences of those choices for culture and society

Studies of Broadcasting , 1991

Democratic Communications in the Information Age Janet Wasko, Vincent Mosco, 1992-09 This analysis begins with a discussion of theoretical issues involved in democratic participatory alternative and community communications In light of these concepts the authors explore various alternative developments in new communications and information technologies as well as various social movements in local national and international settings The issue to critical communications researchers is not just technology and its ability to process information but who owns it who controls it and who has access to it In short who presses the buttons The struggle for alternative democratic solutions will continue and this book is an attempt to engage in such struggle

The End of the CBC? David Taras, Christopher Waddell, 2020-01-29 The End of the CBC is about three overlapping crises the crisis that has enveloped the CBC the crisis of news and the crisis of democracy The emergence of platforms such as Google Facebook Twitter and Netflix the hyper targeting of individual users through data analytics the development of narrow online identity communities and the rise of an attention economy have changed the media landscape in dramatic ways Describing the failure of successive governments to address problems faced by the public broadcaster this book explains how the CBC lost its place in sports drama and entertainment Taras and Waddell propose a way forward for the CBC one in which the corporation concentrates its resources on news and current affairs and re establishes a reputation for depth and quality

Canadiana , 1990-09

Research Communication in the Social and Human Sciences Céline Beaudet, Pamela Grant, Doreen Starke-Meyerring, 2008 The sharing of knowledge is one of the key elements of a society s economic social scientific and cultural development Social and human science research addresses some of society s most pressing problems such as poverty illiteracy high dropout rates in schools marginalization of social groups to name but a few Despite its vital role in building a civil society research in the social and human sciences has been criticized for being little known by the public This lack of large scale visibility detracts from its social and scientific significance and legitimacy in a media driven society To address this pressing need for sharing social and human science knowledge and to overcome the paradox of its invisibility this book brings together researchers from across disciplines in the social and human sciences who have identified the challenges in communicating across boundaries of researcher and practitioner communities and who have begun to develop solutions ranging from research dissemination in the media to stakeholder engagement in research networks and partnerships

Canadian Democracy Stephen

Brooks, 2007 This revision of the standard work on the subject is designed for introductory courses in Canadian politics It explores the characteristics and controversies associated with Canada's political structure In addition to covering all of the basic elements Brooks asks questions about the quality of Canadian democracy **America, History and Life**, 1998 Article abstracts and citations of reviews and dissertations covering the United States and Canada "Everyone Says No" Kyle R. Conway, 2008 Cultural Development in an Open Economy Stuart McFadyen, 1994 The tension between cultural objectives and commercial considerations will become even more important in the future as a result of the convergence of the broadcasting telecommunications and computer industries Technological improvements lower the barriers to movement of information and cultural products internationally and this in turn heightens the economic pressures which must be dealt with by those pursuing cultural goals As well as economic pressures new means of content delivery undermine the ability of regulators to control content This volume presents the thoughts of Canada's leading communication scholars on this problem and their suggestions as to how cultural industry researchers should orient their work to deal effectively with the problems faced by the cultural industries in an environment of much more open global competition Papers deal with cultural foundations cultural and economic policy the globalization of cultural industries special Quebec research issues Native and multicultural concerns as well as audience and business research The essays are reprinted from Volume 19 Number 3/4 a special issue of the Canadian Journal of Communication **Media in Transition** Oleg Manaev, Yuri Pryliuk, 1993 **The Microphone Wars** Knowlton Nash, 1994 The Microphone Wars is the astonishing and sometimes hilarious chronicle of the CBC full of larger than life characters incidents of skulduggery and moments of both despair and exhilaration and all underpinned by the good humour and acumen of its author The CBC is the most intensely scrutinized institution in Canada Everyone it seems has an opinion on it Yet oddly its history has never been fully told before But now the missing story that reveals all has been written by the one person with intimate knowledge of the CBC who can be absolutely fair Knowlton Nash who retired from the corporation in 1992 Nash brings his extensive contacts his own experiences his journalist's objectivity and his tremendous research and storytelling skills to the Byzantine tale of Canada's public broadcaster Ever since the 1920s when radio took Canada by storm there has been war between those who want to use the airwaves solely for commercial profit and those who believe in public broadcasting for its role in education and nation building There have been battle between management and producers and stars between the CBC and successive governments Liberal and Conservative alike between the CBC board and its executives between the private broadcasters and the CBC even between various CBC luminaries and the bottle Along with his vivid and intimate portraits of these fights Nash gives us the stories of the CBC's many triumphs from Foster Hewitt's early play by play of Saturday Night hockey games and Matthew Halton's dramatic broadcasts from the frontlines of the Second World War to the magic of TV in the 1950s the renaissance of CBC Radio in the 1970s and CBC TV's drama and comedy hit programs in the 1980s There have been betrayals aplenty too by governments

determined to curb the CBC's independence by one's means or another or to starve it into submission and by insiders plotting the demise of controversial programs and equally controversial producers and personalities. Based on countless hours of research on interviews with forty major figures from the CBC's more recent past and on as many oral history tapes recorded by earlier CBC leaders, *The Microphone Wars* is the definitive popular history of Canada's public broadcaster. True Patriot Love Sylvia B. Bashevkin, 1991. This book is an analysis of pan-Canadian nationalism on a political level. It does not question whether nationalist approaches to issues such as free trade, foreign investment, or culture are normatively good or economically beneficial matters that have arguably been exhausted in recent years. Rather, it studies what these approaches are and how they have influenced government action. Specifically, it considers the interplay between nationalist ideas and organizations on the one hand and federal politics on the other. Bashevkin's overall purpose is to shed light on larger questions of social action and state response. How have nationalists shaped Canadian politics and society? How successful have they been in articulating a pan-Canadian vision of the country? To what extent has their influence been limited by the pull of competing regional, cultural, and ideological identities? What are the future political prospects of pan-Canadianism?
