Predicting Mississippi Curriculum Testing Program, Second Edition Performance Using the Northwest Evaluation Association Measures of Academic Progress Mary Cole, 2014 The purpose of this study was to determine if the Northwest Evaluation Association NWEA Measures of Academic Progress MAP reading and math assessments are a valid predictor of performance on the language arts and mathematics Mississippi Curriculum Test 2nd Edition MCT2 Additionally the researcher sought to determine whether student characteristics of gender ethnicity and economically disadvantaged status added statistically to the prediction of MCT2 scores The researcher used a correlational research design to answer the research questions that guide this study Regression analyses were performed using IBM Statistical Package for the Social Sciences SPSS version 22 Data were collected from a Southern Mississippi school district Scores from 676 6th grade students and 659 8th grade students were used in this study The results of simple linear regression indicate that NWEA MAP reading and mathematics assessments are a valid predictor of language arts and mathematics MCT2 scale scores for 6th and 8th grade students Results of multiple regression indicate that the linear combination of fall reading NWEA MAP RIT scores spring reading NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 language arts scale scores for sixth grade students likewise the linear combination of fall reading NWEA MAP RIT scores spring reading NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 language arts scale scores for eighth grade students Similarly multiple regression analyses indicate that the linear combination of fall mathematics NWEA MAP RIT scores spring mathematics NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 mathematics scale scores for sixth grade students similarly the linear combination of fall mathematics NWEA MAP RIT scores spring mathematics NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 mathematics scale scores for eighth grade students

The Impact MCT2 Has on an Elementary and Middle School Reading and Language Arts Classroom Instruction in Mississippi Sarah Elizabeth Campbell, 2009 The purpose of this study was to understand what No Child Left Behind NCLB meant to teachers in Mississippi and to determine what impact this reform had on reading and language arts classroom instruction for teachers Qualitative research methods in the form of interview data and classroom observations were used to examine teachers perceptions of accountability and its effects on classroom instruction Teachers were asked to answer a set of research interview questions related to research questions The specific research questions used to explore teachers perceptions about accountability were 1 What are reading and language arts teachers perceptions of accountability 2 What are teachers perceptions of the influence of state testing on reading and language arts classroom instruction and 3 How do elementary and middle school teachers prepare students for end of year reading and language arts state test The researcher

gathered qualitative data from five teachers with teaching experience ranging from 5 years to 30 years of teaching experience Each teacher who participated in this study was familiar with administering Mississippi Curriculum Test 2 MCT2 at the elementary and middle school level The results of this study indicated that teachers believe that the Mississippi accountability system is effective for improving the teaching and learning process but not for holding schools and districts accountable Each teacher in this study believed that test scores alone were not effective for addressing the familial and societal issues many schools face on a day to day basis and as a result using test scores to determine school quality was unrealistic Of the five teachers interviewed four reported engaging students in meaningful learning activities that put emphasis on the significance of language arts in daily life These teachers were also observed placing more emphasis on rubric based assessments classroom writing activities and student centered activities as a result of the 2006 Mississippi Language Arts Framework Revised and MCT2 Recommendations for further research include investigating whether the impact of teachers professional experience influences student achievement or whether the impact of the building principal s perceptions of the framework impact classroom instruction and teachers perceptions
