TACTICAL AND TECHNICAL TRENDS No 3112 August 1943 Prepared for ARMY GROUND AIR AND SERVICE

FORCES by MILITARY INTELLIGENCE SERVICE WAR DEPARTMENT WASHINGTON D C CONTENTS Knowledge Anthon P. Botha, 2008-09 Inspired by today's world of increasingly available knowledge and rapidly changing access to it this book examines the challenges of decision making when knowledge expands faster than we can learn analyzes how knowledge changes shape depending on who owns it and reveals how knowledge disappears in its own volatility Offering a truly comprehensive exploration of the topic this guide also instructs how to generate select measure manage network protect sell and respect knowledge Technical Report, 1998

Functional Capabilities of Four Virtual Individual Combatant (VIC) Simulator Technologies Robert J. Pleban, 1998 This research describes the results of an independent assessment of the functional capabilities of four virtual individual combatant VIC simulators Infantry soldiers were given the opportunity to operate each VIC in a series of squad based scenarios requiring the performance of both individual and collective tasks in a desert or urban setting The results indicated that the more realistic the action or equipment used and the more reliable the VIC the more the soldiers liked that system An important consideration in the development of future generation VICS is the specific purpose s to be served by these systems e g mission planning and rehearsal versus training individual soldier skills The data collected from this research provide an important first step in the development of a set of dismounted infantry requirements for manned simulators that will support the integration of the individual soldier into the virtual battlefield DTIC

East Asian High-tech Drive Yunpeng Zhu, Hal Hill, 2006 Argues that to maintain the growth momentum the more advanced East Asian economies need to pay particular attention to policies designed to upgrade their industrial capabilities This book argues that effectively functioning institutions predictable commercial policies and more are essential for growth and technological development City in a Garden Andrew M. Busch, 2017-05-16 The natural beauty of Austin Texas has always been central to the city's identity From the beginning city leaders residents planners and employers consistently imagined Austin as a natural place highlighting the region's environmental attributes as they marketed the city and planned for its

growth. Yet as Austin modernized and attracted an educated and skilled labor force the demand to preserve its natural spaces was used to justify economic and racial segregation. This effort to create and maintain a city in a garden perpetuated uneven social and economic power relationships throughout the twentieth century. In telling Austin's story Andrew M Busch invites readers to consider the wider implications of environmentally friendly urban development. While Austin's mainstream environmental record is impressive its minority groups continue to live on the economic social and geographic margins of the city. By demonstrating how the city's midcentury modernization and progressive movement sustained racial oppression restriction and uneven development in the decades that followed Busch reveals the darker ramifications of Austin's green growth.
