want to achieve a k a passion or big WHY this is the book to help you finally overcome procrastination Family and friends can

only support you for so long before you feel like you've let them down too. I bet you understand that situation all too well. Don't you? You're not alone. But you don't have to be stuck anymore. Your dreams don't have to die before they are born. You're at a point where it's time to give birth to a whole new idea, service, product. As with the birthing of a child, you sit there feeling the labor pains. And no amount of breathing or pain killers can handle this: the emotional and psychological torture you put yourself through. There's only one solution: You must bring this new thing into the world. From a spiritual perspective, the pushback you're feeling right now is part of the testing process. Do you really want it? Do you really? From a scientific perspective, your brain doesn't want you to change. So it's resisting. It's fighting back with all of its primitive understanding. Change, bad! Let's stay right where we are, it says. Here, safe. That's not a slight to you. It's the way we are all wired. So listen up. First, I want to tell you that it is okay. It's natural to feel this way. Most people will never leave the comfort of their safety zone. The one they've been living in their entire life. And if that's where you want to be, stay there. This book is definitely not for you. But if you want something different, and I'm betting you do, especially since you're reading this description, then you must break free of your comfort zone, and this book will show you how. It's no longer okay to stay where you are. I mean that with the toughest love I can give you. Make it easier on yourself and read this book. Inside, you'll learn how to eliminate some of the biggest distractions in your work and life, how to create the ideal schedule for you based upon how you operate, how to stop overthinking and start making stuff happen, a four-step formula for breaking down any goal, how to deal with perfectionism and other self-limiting beliefs, the importance of rewarding yourself daily, and how to create an environment that makes you more productive. The skills and tactics introduced in this book are based upon the processes the author has used in his life to go from a drug addict to top 5 high performance strategist in the US, inspirational speaker and published author, all while raising a little girl as a single father, working his way out of a job and on his master's degree. They work for him, and they are working with his clients in MLM service businesses and the art industry. The principles work because of one fundamental building block: a personal mission. It is a great book with a lot of action steps to be taken. It should keep people focused. Trinette Stanford, NP, CDE, Nurse Practitioner, Diabetes Educator. www.TotallyAboutDiabetes.com.
