

## The Minnesota Cognitive Acuity Screen (MCAS) - Alternative

If there is anyone present, besides the applicant, please read the following script:

"The insurance company has requested that only the applicant be present for the remainder of the interview."

### Instructions To Interviewer for Second Portion of Interview - Cognitive Screen:

- During the cognitive portion of the interview, only the applicant may be in the room with the interviewer.
- Record comments or responses to every question - don't leave anything blank.
- This interview is to be completed in black ink.

### General Instructions Regarding MCAS:

The MCAS Evaluation is a brief screen of cognitive ability.

Please read **all** instructions in each subsection of the MCAS carefully, and make sure all subsections are completed because each answer is scored individually. The MCAS is a validated standardized screen that **must** be administered according to the instructions.

- The MCAS contains nine subsections clearly labeled (A, B, C, D, ..., J) on the following seven pages with easy-to-follow instructions. Ask the MCAS questions in the order they appear.
- If a subsection is in numerical or alphabetical order, it is essential that you follow the sequence exactly.
- Read instruction in each box to yourself.
- Read instruction to applicant exactly as it appears after the word "STATE".
- Always keep your voice evenly modulated and speak slowly.
- Do not deviate from the script. If an applicant does not understand the instructions, slowly repeat the same set of instructions.
- You will need to cut apart the cards on the last page and use them in flash-card style in numerical order, when completing the Delayed Word Recall section of the evaluation. If an applicant is legally blind follow all other instructions for this section, but omit the use of the flash cards.
- If an applicant becomes unusually anxious or frustrated during the MCAS portion, you may need to use your professional judgment in deciding whether to proceed.
- If an applicant has expressive aphasia, use your judgment in determining how many sections of the MCAS to complete. If the applicant is excessively frustrated due to expressive aphasia, discontinue the exam and make a comment as to the reason.
- If there are any circumstances that you feel may have affected the applicant's performance on the MCAS (i.e. hard of hearing, interruptions), please make a comment in the Comments section following the exam.
