**The Ten Lost Tribes** Zvi Ben-Dor Benite,2013-11 In *The Ten Lost Tribes* Zvi Ben Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became over two millennia an engine for global exploration and a key mechanism for understanding the world

*The Suicide of Miss Xi* Bryna Goodman,2021-07-13 A suicide scandal in Shanghai reveals the social fault lines of democratic visions in China's troubled Republic in the early 1920s On September 8 1922 the body of Xi Shangzhen was found hanging in the Shanghai newspaper office where she worked Although her death occurred outside of Chinese jurisdiction her US educated employer Tang Jiezhi was kidnapped by Chinese authorities and put on trial In the unfolding scandal novelists filmmakers suffragists reformers and even a founding member of the Chinese Communist Party seized upon the case as emblematic of deep social problems Xi's family claimed that Tang had pressured her to be his concubine his conviction instead for financial fraud only stirred further controversy The creation of a republic ten years earlier had inspired a vision of popular sovereignty and citizenship premised upon gender equality and legal reform After the quick suppression of the first Chinese parliament commercial circles took up the banner of democracy in their pursuit of wealth But Bryna Goodman shows the suicide of an educated new woman exposed the emptiness of republican democracy after a flash of speculative finance gripped the city In the shadow of economic crisis Tang's trial also exposed the frailty of legal mechanisms in a political landscape fragmented by warlords and enclaves of foreign colonial rule *The Suicide of Miss Xi* opens a window onto how urban Chinese in the early twentieth century navigated China's early passage through democratic populism in an ill fated moment of possibility between empire and party dictatorship Xi Shangzhen became a symbol of the failures of the Chinese Republic as well as the broken promises of citizen's rights gender equality and financial prosperity betokened by liberal democracy and capitalism

French,2014-07-02 *Early Interracial Oneness Pentecostalism* is a look at what is perhaps the least known chapter in the history of American Pentecostalism The study of the first thirty years of Oneness Pentecostalism 1901-31 is especially relevant due to its unparalleled interracial commitment to an all flesh all people counter cultural Pentecost This in depth study details the lives of its earliest primary architects including G T Haywood R C Lawson J J Frazee and E W Doak and the emergence of Oneness Pentecostalism and its flagship organization Pentecostal Assemblies of the World This is a one of a kind history of Pentecostalism through the lens of the Jesus Name movement and the interracial struggles of the period interlinking the significance of Charles Parham William Seymour and the Azusa Street revival COGIC the newly formed Assemblies of God and dozens of the earliest Oneness organizational bodies Exploration of the significance of the role of African American Indianapolis leader G T Haywood is central as are the development of the movement's key centers in the United States and the ultimate loss of interracial unity after more than thirty years These crucial events marked indelibly the U S the global missionary and the autochthonous expansion of Oneness Pentecostalism worldwide

**Complexity in**

**Chemistry and Beyond: Interplay Theory and Experiment** Craig Hill, Djamaladdin G. Musaev, 2013-01-08 Complexity occurs in biological and synthetic systems alike This general phenomenon has been addressed in recent publications by investigators in disciplines ranging from chemistry and biology to psychology and philosophy Studies of complexity for molecular scientists have focussed on breaking symmetry dissipative processes and emergence Investigators in the social and medical sciences have focused on neurophenomenology cognitive approaches and self consciousness Complexity in both structure and function is inherent in many scientific disciplines of current significance and also in technologies of current importance that are rapidly evolving to address global societal needs Several of these multifaceted scientific disciplines are addressed in this book including complexity from the general and philosophical perspective magnetic phenomena control of self assembly and function in large multicomponent clusters application of theory to probe structure and mechanism in highly complex molecular species and the design of multifunctional nanoscale molecules of value in decontamination and solar fuels research Each chapter is both a review and addresses some ongoing challenges thus each should provide a good preparation for further work in these highly active areas of research endeavour

**Losing Hearts and Minds?** Carnes Lord, 2006-08-30 There is a broad consensus among informed observers both inside and outside the Beltway that American public diplomacy leaves much to be desired Recent studies describe ineffectiveness inadequate resources and a general lack of direction Further complicating this situation there is no real consensus among critics on what must be done to fix current problems Moreover the ills afflicting public diplomacy are poorly understood Losing Hearts and Minds situates these problems within the complex environment of U S government bureaucracy and relates them to other instruments of national power particularly diplomatic activities and military force This book prompts debate by analyzing obstacles to effective public diplomacy and offers a comprehensive vision of this critical dimension of statecraft which without improvements will ill serve the nation in its ongoing efforts to counter the global threat of terror After a systematic exploration of the concepts and terminology used to characterize public diplomacy and the wider domain of strategic influence Carnes Lord examines the contemporary security environment and sketches an overall strategy that should guide the United States in projecting influence in the war on terror and in pursuing larger global interests The author then looks at the cultural and institutional problems that have long handicapped the performance of the U S government in these areas The book concludes with a detailed examination of the specific problems facing governmental agencies involved in public diplomacy and kindred disciplines including the Departments of State and Defense international broadcasters and the White House

Colin Jordan and Britain's Neo-Nazi Movement Paul Jackson, 2018-06-28 Colin Jordan and Britain's Neo Nazi Movement casts fresh light on one of post war Britain's most notorious fascists using him to examine the contemporary history of the extreme right The book explores the wide range of neo Nazi groups that Colin Jordan led contributed to and inspired throughout his time as Britain's foremost promoter of Nazi ideology In a period stretching from the close of the Second World War right up to the

2000s Colin Jordan became politically engaged with a multitude of Nazi inspired extremist groups either as leader or as a key protagonist Moreover Jordan also developed critical relationships with larger competitor extreme right organisations and parties including the Mosley s Union Movement the National Front and the most recent incarnation of the British National Party He fostered a number of transnational links throughout his years of activism as well especially with American neo Nazis In recent years his writings and somewhat idealised profile have been adopted by more contemporary extremist organisations such as the British People s Party and a rekindled British Movement who look to Jordan as an inspirational figure for their own reconfigurations of a National Socialist agenda By examining this history drawing on a wide range of fresh primary sources Colin Jordan and Britain s Neo Nazi Movement offers a new analysis on the nature and workings of Nazi inspired political extremism in post war Britain It is an important study for anyone interested in the history of fascism extreme ideologies and the political and social history of Britain since the Second World War

Alvarez,2002 Ranging across two centuries of world history Alvarez s fascinating study throws open the Vatican s doors to reveal the startling but little known world of espionage in one of the most sacred places on earth      **The History of Marshall County, Iowa** ,1878      *The History of Marshall County, Iowa* Brookhaven Press,1878      *Opportunities Missed, Opportunities Seized* Bruce W. Jentleson,Carnegie Commission on Preventing Deadly Conflict,2000 The basic logic of preventive diplomacy is unassailable Act early to prevent disputes from escalating reduce tensions that could lead to war deal with today s conflicts before they become tomorrow s crises Yet as we look at the record of these first years of the post Cold War era it is quite mixed There have been some preventive diplomacy successes and opportunities that have been seized by major powers and international organizations to help preserve and protect the peace But there also have been other opportunities that have been missed with some of the century s most deadly conflicts the result This study examines ten major post Cold War cases including Croatia Bosnia Rwanda the Baltics Russia Ukraine Macedonia and North Korea\_ to assess the key factors contributing to both the success and failure of preventive diplomacy The method of case study analysis employed is based on the work of Alexander L George Authors include both leading academics and prominent policy officials with first hand knowledge      **Year Book - The American Philosophical Society** American Philosophical Society,1961 List of members and obituary notices in volume for 1937      **The Constitution and the Conduct of American Foreign Policy** David Gray Adler,Larry Nelson George,1996 In this provocative and readable volume eleven leading constitutional authorities challenge business as usual in American foreign policymaking For far too long they contend Americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed Congress and neglectful scholars These authors forcefully argue that the president is not the supreme crafter of foreign policy and that Congress must provide more than a rubber stamp for the president s agenda Unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s

welfare and is simply without constitutional warrant Combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances An essential guide for all concerned citizens and members of Congress this volume should help revive a proper understanding of this crucial dimension of American democracy *Journal of Indian History*, 1978 **The Journal of Transport History**, 1993 *The Family in America* Joseph M. Hawes, Elizabeth F. Shores, 2001 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change Europe on the Move Peter Nijkamp, European Science Foundation, 1993 This text provides a representative review of trends problems policy issues and solutions in the field of European transportation and communication It is the synthesis of much European research undertaken by researchers in the European Science Foundation sponsored network NECTAR including almost all European countries The Lost Empire John Hemsley, 1991 This is an investigation into the mechanisms of change and how these have an impact on the institutional processes in the Soviet Union These processes are defined with a view to establishing how much inertia exists and why and to what extent they may be responsive to the requirements of perestroika It seeks to establish the constraints on and limitations of perestroika as well as looking at the penalties of failure and the effects on the system as a whole Corporate Networks, International Telecommunications and Interdependence Henry Bakis, Ronald Abler, Edward Mozley Roche, 1993 Emergent Capitalism in Japan Leonard Caum Moffitt, 1957
