W Trushel,2020-08-02 There are many books on how to succeed in F I Experts are everywhere trying to give you advice on  
how to be successful You see magazines blogs podcasts and even TV shows telling you how to maximize your profits and  
overcome any objection Yet something is still missing Customer satisfaction is incredibly low People dislike the buying  
process Nearly 6 out of every 10 customers skip buying a vehicle service contract from their selling dealer while third party  
competition is thriving on selling to those same customers With the advent of DealerTrack and RouteOne coupled with the  
evolution of the desk submitting deals before F I involvement even begins people should be delighted with the overall  
transaction times but they re not Another problem we face is that most F I training offered today follows an old model of  
trying to simply overcome objections The focus on objections made F I development companies a solution for dealers wanting  
to create their own F I departments in the 1970 s And it worked They created an industry But the world keeps moving Today  
endlessly debating with customers by overcoming every objection is a problem We must be as Bruce Lee said Like water and  
adapt to each customer individually For instance today a menu presentation with every product bundled into the Complete or
