**Business How to Stop Procrastinating** Roy Naraine, 2017-05-05 We human beings have the natural tendency to choose things that are more pleasurable for us and avoid painful and stressful situations. This inborn mechanism of the brain is the dictating force that makes us procrastinate. Even though you are fully aware of the importance of starting and completing a task, you ignore it and concentrate on the more trivial ones. This is because the trivial ones are easier to do, require less brain effort and bring immediate satisfaction. Unfortunately, you may have to pay the price for such temporary satisfaction. At the workplace, your colleagues may become angry and will not even try to hide their disgust or irritation when you fail to reach yet another deadline. Your position in the company is becoming weaker just because you do not have the motivation or creativity to tackle your tasks at the right time. Unfortunately, the problem of procrastination has paralyzed a great part of our population and is responsible for people's failure and downfall. As a self-improvement trainer, I have had the opportunity to work with people who were slowly paving their way towards failure through procrastination. I have been successful in bringing them back on the right path to improve the quality of both their personal and professional lives. In this book, I will explain the mechanism that takes place in the brain and forces people to postpone important things. Once you understand the reason behind procrastination, it becomes easier to take the right measures to eliminate it from your life and reach your goals. I will teach you how to manage your mind effectively and put procrastination in its place. I will also show you how to enhance your self-confidence that will lead you towards conquering obstacles and getting what you truly deserve. By applying the knowledge I provide in this book, you will be able to regain control of yourself and fulfill your expectations. This in turn will make you feel better in your own company as well as in the

company of others Procrastination is an enemy that can be beaten
