**World War II Glider Pilots** ,1991 **World War II Glider Assault Tactics** Gordon L. Rottman,2014-03-20 Featuring specially commissioned full color artwork the story of the perilous glider assaults carried out by the men who sometimes led and sometimes followed World War II paratroopers onto their objectives Military gliders came of age in World War II when glider assault infantry were the forerunners of today's helicopter delivered airmobile troops From the light pre war sports and training machines several nations developed troop carrying gliders capable of getting a whole squad or more of infantry with heavy weapons onto the ground quickly with the equipment that paratroopers simply could not carry They made up at least one third of the

strength of US British and German airborne divisions in major battles and they also carried out several daring coup de main raids and spearhead operations. However the dangers were extreme the techniques were difficult the losses were heavy particularly during night operations and the day of the glider assault was relatively brief. This book explains the development and organization of glider troops their mounts and the air squadrons formed to tow them the steep and costly learning curve and the tactics that such troops learned to employ once they arrived on the battlefield. **Soaring**, 1993. *United States Army Combat Forces Journal*, 1951. **Air Trails Pictorial**, 1937-10. **Flight International**, 1963. *The Eagle Magazine*, 1942. **Report of the U.S. Commissioner** Austria (Territory under Allied Occupation, 1945-U.S. Zone) Military Commissioner, 1948. **Collier's**, 1942-10. **Report of the United States Commissioner** Austria (Territory under Allied occupation, 1945-1955 : U.S. Zone).
