The Profiteers Christopher Marquis, 2024-05-14 An exposé of how society pays for corporations free lunch and the cost of environmental damage low wages systemic discrimination and cheap goods In an age when business leaders solemnly profess dedication to principles of environmental and social justice Christopher Marquis's provocative investigation into the real costs of doing business reveals the way that leaders of the corporate world gaslight to evade responsibilities by privatizing profits and socializing costs Who pays for the resulting climate and environmental damage racism low wages and cheap goods the average citizen and the taxpayer By bringing to light ideas that today are on the fringe but rapidly making their way into the mainstream Marquis outlines a new regenerative paradigm for business in society He tells of a group of pioneers trying to not just reform but transform the way business is conducted all over the world By taking novel actions to reimagine business operations in responsible ways minimize their negative impacts and create new ways for business to properly absorb their hidden costs these leaders provide blueprints to move the needle on vexing social and environmental issues What's in it for leaders of the corporate world The model of reform presented provides clear guidance on how to get ahead of the curve as an emerging economic order is formed No business can lead from the front if it is morally backward looking History has shown time and again that those who get out in front of emerging changes in our social and environmental landscape protect themselves from inevitable eclipse Management Fundamentals Robert N. injustices and further devalue reproductive labor By drawing connections between innovation discourse the rise of neoliberalism financialized capitalism and the social and political degradation of reproductive labor Denbow illustrates what needs to be done to destabilize the overvaluation of innovation and to offer collective support for reproduction
