Economic and Social Commission for Asia and the Pacific,1986 The research reports and statements by government representatives contained in this volume were presented at the Policy Workshop on International Migration in Asia and the Pacific held at Bangkok from 15 21 October 1985 The workshop was the final activity of a 2 year Economic and Social Commission for Asia and the Pacific ESCAP project on international migration policy in Asia and the Pacific funded by the UN Fund for Population Activities The 2nd phase of the project includes the studies reported in this volume which were intended to be exploratory They were meant to assess the current state of knowledge regarding return migration and to identify critical issues that would require further investigation 5 of the studies are concerned with return migration from temporary employment primarily in the Middle East Because many of the labor sending countries of the Mediterranean basin experienced a rapid expansion of labor emigration largely to northern and western Europe and a contraction of the flow and increase in return migration prior to current trends in Asian labor migration it was felt that a background paper on that experience would be value to policy makers in the ESCAP region Migration from the Pacific sub region of ESCAP is both of more variable duration and less heavily labor oriented than temporary migration from Asian countries to the Middle East The workshop s objectives were 1 to bring together researchers and policy makers to review carefully the results of the 7 studies carried out as part of the project 2 to relate the research findings to feasible government policies for the reintegration of returning labor migrants and 3 to make and disseminate
