

# **ASTB Study Supplement**

The Sections of this Guide are as follows:

1. Test overview and section explanations.
2. Section 1: Math Skills Section
3. Section 2: Reading Comprehension Section
4. Section 3: Mechanical Comprehension Section
5. Section 4: Spatial Apperception Section
6. Section 5: Aviation and Nautical Information Section
7. Section 6: Aviation Supplemental Section
8. Recommended study plans and supplemental information (Websites, Books, and Commercial Prep Guides.)

## **Section One: Test Overview and Section Explanation**

The difficulty of the ASTB lies in its varied subject matter not in the difficulty of its questions. Also, under the time constraints and pressure of this test you may make the mistake of getting bogged down on a single question at the expense of answering easier questions in the time remaining. Just as much as this is a test of knowledge, it is also a balancing act between accuracy and time management. You should keep the following advice in mind when working through the different sections.

- Each question has equal weight and answering a question incorrectly does not subtract from your score. Therefore, there is no excuse for not answering every single question in a section.
- The difficulty of each question remains at approximately the same level as you progress through the individual sections. Therefore, do not get wrapped around the prop trying to figure out a question in which you are unfamiliar. Swallow your pride and skip difficult questions and return to them if time permits.
- It pays to use a systematic approach to maintain the pace required to adequately tackle each question within a section. The sample test questions in Chapter 8 will give you an opportunity to apply these time management concepts.
- There is no excuse for not answering each and every question on this test.

Ensure you are well rested and hydrated prior to the test day. The longest section is only 30 minutes long, so you have the opportunity to take a bathroom break in between sections. You will want to ensure that you have a timer (watch with standard chrono-functions is adequate) on test day. Also, when completing the sample problems provided in Ch. 8, you should use a timer to pace yourself as if it were game day.
