**Yoga as Embodied Mindfulness** Catherine

Cook-Cottone, Tracy L. Tylka, 2025-05-30. This book examines yoga as embodied mindfulness, introducing and explicating the concepts of yoga and embodiment and the associated theoretical and empirical developments in the field. It focuses on such issues as embodiment, yoga application, embodiment models to yoga, and the mechanism of change in yoga for the development of positive embodiment. In addition, the book introduces research-based measures that may be useful in the practical applications of yoga for embodiment. It addresses assessment domains including interoception, body appreciation, developmental embodiment, yoga assessments, and mindful self-care. Chapters review research applications such as social justice, diversity, equity, and inclusion; cultural appropriation; research protocols; body image; eating disorders; and substance abuse and addiction. The volume provides practical and clinical considerations specific to teaching yoga classes, sessions, and contextual considerations, e.g., developing a yoga space that supports positive embodiment. Key topics featured include: A conceptual overview of yoga and embodiment; Mechanisms of change in yoga for positive embodiment; Yoga and secularity; Assessment and measurement in yoga and embodiment; Research review of yoga applications for embodiment for those with substance use and addiction; depression and anxiety; Practical guidance for yoga teaching and delivering yoga protocols. Yoga as Embodied Mindfulness is a must-have resource for researchers, professors, and graduate students, as well as clinicians, therapists, and other practitioners in psychology, complementary and alternative medicine, and social work, as well as all interrelated research disciplines and clinical practices.
