**Enduring Legacies** Arturo J. Aldama,Elisa Facio,Daryl Maeda,Reiland Rabaka,2011-05-18 Traditional accounts of Colorado's history often reflect an Anglocentric perspective that begins with the 1859 Pikes Peak Gold Rush and Colorado's establishment as a state in 1876. Enduring Legacies expands the study of Colorado's past and present by adopting a borderlands perspective that emphasizes the multiplicity of peoples who have inhabited this region. Addressing the dearth of scholarship on the varied communities within Colorado, a zone in which collisions structured by forces of race, nation, class, gender, and sexuality inevitably lead to the transformation of cultures and the emergence of new identities, this volume is the first to bring together comparative scholarship on historical and contemporary issues that span groups from Chicanas and Chicanos to African Americans to Asian Americans. This book will be relevant to students, academics, and general readers interested in Colorado history and ethnic studies. **The World & I**,1991 *Montana*,1993 *Forthcoming Books* Rose Arny,1990 *Subject Guide to Books in Print*,1996 Medicine Women, Curanderas, and Women Doctors Bobette Perrone,H. Henrietta Stockel,Victoria Krueger,1989 The stories of ten women healers explore cultural healing methods utilized by women and present three distinct interpretations of the causes and treatments of human illness. Medicine Women, Curanderas, and Women Doctors Bobette Perrone,Victoria Krueger,H. Henrietta Stockel,2012-11-15 The stories of ten women healers form the core of this provocative journey into cultural healing methods utilized by women. In a truly grassroots project, the authors take the reader along to listen to the voices of Native American medicine women, Southwest Hispanic curanderas and women physicians as they describe their healing paths. This book will fascinate anyone interested in the relationship between illness and healing, medical practitioners and historians, patients, anthropologists, feminists, psychologists, psychiatrists, theologians, sociologists, folklorists and others who seek understanding about our relationship to the forces of both illness and healing.
