Memo For Geography 2013 Grade 11 September:

The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that *The Meritocracy Trap* prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity

A Global Idea Mayssoun Sukarieh, 2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab

Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies The Routledge Handbook of Henri Lefebvre, The City and Urban Society Michael E. McCarthy, 2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre s urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre s ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre s spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre s ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre s key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Lefebvre s ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance The Times Index ,2013-04 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement
