*in Depth* Jim Cheshire, 2008 Reminders of death were everywhere in the New World from the epidemics that devastated Indian populations and the mortality of slaves working the Caribbean sugar cane fields to the unfamiliar diseases that afflicted Europeans in the Chesapeake and West Indies According to historian Erik R Seeman when Indians Africans and Europeans encountered one another they could not ignore the similarities in their approaches to death All of these groups believed in an afterlife to which the soul or spirit traveled after death As a result all felt that corpses the earthly vessels for the soul or spirit should be treated with respect and all mourned the dead with commemorative rituals Seeman argues that deathways facilitated communication among peoples otherwise divided by language and custom They observed asked questions about and sometimes even participated in their counterparts rituals At the same time insofar as New World interactions were largely exploitative the communication facilitated by parallel deathways was often used to influence or gain advantage over one's rivals In Virginia for example John Smith used his knowledge of Powhatan deathways to impress the local Indians with his abilities as a healer as part of his campaign to demonstrate the superiority of English culture Likewise in the 1610-1614 war between Indians and English the Powhatans mutilated English corpses because they knew this act would horrify their enemies Told in a series of engrossing narratives Death in the New World is a landmark study that offers a fresh perspective on the dynamics of cross cultural encounters and their larger ramifications in the Atlantic world

**Microsoft Expression Web 2 for Windows** Nolan Hester, 2010-04-07 Microsoft Expression Web offers a powerful array of visual tools for creating great looking sites while fully supporting Web based standards Expression

Web makes it easy for designers to quickly design cool sites with tools that feel familiar. Thanks to Expression Web's underlying standards the files can then be passed to developers who can code the site in the development tools they prefer. This back and forth without designers having to touch the code unless they want to makes this a powerful program. In Expression Web 2 Microsoft has added support for PHP backed sites and made it easy to work with PHP. Other new features include Silverlight support and new editing capabilities for Flash SWF and Windows Media files. In addition Expression Web 2 now provides ASP.NET AJAX server controls that enable users to quickly create web pages that include a rich user experience with responsive and familiar user interface UI elements.
