As a result, students learn to be self-motivated learners in a process that is so often that kind of self-motivated learning is the only way to achieve the best results.

Proof. The result is obvious when the corresponding elements are either identical or mutually orthogonal. Suppose that α and β are linearly independent. Assume that α and β are not orthogonal. Then α and β are linearly independent and α and β are not orthogonal. This is a contradiction. \square

Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week of aerobic exercise. The HR and EE were measured at baseline and at the end of the 12-week training program. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 12-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

domestic and international studies consistently show a positive relationship between the use of the Internet and the use of other information sources. The more people use the Internet, the more they use other information sources.
