**No Red Lights** Alan J. Patricof,2022-05-03 As featured in The Wall Street Journal One of Business Insider s 5 Best Leadership Books I Read This Year for 2022 A look back at entrepreneurial growth and venture capital in the last half century by one of the leading figures in the industry Extensive media and online coverage of the business arena news of start ups mergers and deals are familiar headlines these days But

that wasn't always the case. The early years of venture capital were a far cry from today's very public dealings. Alan Patricof, one of the pioneers of the venture arena, offers a behind-the-scenes look at the past fifty years of the industry. From buying stock in Apple when its market valuation was only 60 million to founding New York Magazine to investing in AOL, Audible, and more recently, Axios, his discerning approach to finding companies is almost peerless. All of Patricof's investments, from Xerox to Venmo, share certain qualities: Each company had a sound product with wide appeal, the economics were solid, and the management team was talented and committed to seeing their visions come to fruition. British Poultry Field and World Poultry Digest, 1951      *Venmo: an Easy Guide for Beginners* Scott Casterson, 2016-03-09

With cash becoming a thing of the past, many companies are trying to appease such a new-age phenomenon. These apps allow you to enjoy a night out with dinner and a show with friends without having a dime in your pocket. Venmo is one such app. It is a digital wallet that gives users the opportunity to send money from your bank account for free to either pay bills or repay a friend by sending money back to their Venmo account. It came about in March 2009 as a system through which funds could be paid through text messages and is said to be safe for users but has since been refined and is now very popular among the social class.
