Disability and Sanctity in the Middle Ages Stephanie Grace-Petinos, Leah Parker, Alicia Spencer-Hall, 2025-10-01 This volume significantly expands current understandings of both disability and sanctity in the Middle Ages Across the collection heterogeneous constructions and experiences of disability and holiness are excavated Analyses span the sixth to the fifteenth century with discussion of holy men and holy women Western Christian and Buddhist traditions hagiographic texts images and artefacts Each chapter underscores that disability and sanctity co exist with a vast array of connotations not just fully positive or fully negative but also every inflection in between The collection is a powerful rebuttal to the notion of the integral relationship of disability medieval and otherwise with sin stigma and shame So doing it recentres medieval disability history as a lived history that merits exploration and celebration In this way the volume serves to reclaim sanctity in disability histories as a means to affirm the possibility of radical disability futures

Women and Devotional Literature in the Middle Ages Cate Gunn, Liz Herbert McAvoy, Naoë Kukita Yoshikawa, 2023 Essays on women and devotional literature in the Middle Ages in commemoration and celebration of the respected feminist scholar Catherine Innes Parker Silence was a much lauded concept in the Middle Ages particularly in the context of religious literature directed at women Based on the Pauline prescription that women should neither preach nor teach and should at all times keep speech to a minimum the concept of silence lay at the forefront of many devotional texts particularly those associated with various forms of women's religious enclosure Following the example of the Virgin Mary religious women were exhorted to speak seldom and then only seriously and devoutly However as this volume shows such gendered exhortations to silence were often more rhetorical than literal The contributions range widely they consider the English Wooing Group texts and female authored visionary writings from the Saxon nunnery of Helfth in the thirteenth century works by Richard Rolle and the Dutch mystic Jan van Ruusbroec in the fourteenth century Anglo French treatises and books housed in the library of the English noblewoman Cecily Neville in the fifteenth century and the resonant poetics of women from non Christian cultures But all demonstrate the ways in which silence rather than being a mere absence of speech frequently comprised a form of gendered articulation and proto feminist point of resistance They thus provide an apt commemoration and celebration of the deeply innovative work of Catherine Innes Parker 1956 2019 the respected feminist scholar and a pioneer of this important field of study

Women's Literary Cultures in the Global Middle Ages Kathryn Loveridge, Liz Herbert McAvoy, Sue Niebrzydowski, Vicki Kay Price, 2023 Initiates a wider development of inquiries into women's literary cultures to move the reader beyond single geographical linguistic cultural and period boundaries Since the closing decades of the twentieth century medieval women's writing has been the subject of energetic conversation and debate This interest however has focused predominantly on western

European writers working within the Christian tradition the Saxon visionaries Mechthild of Hackeborn Mechthild of Magdeburg Gertrude the Great for example and in England Julian of Norwich and Margery Kempe are cases in point While this present book acknowledges the huge importance of such writers to women s literary history it also argues that they should no longer be read solely within a local context Instead by putting them into conversation with other literary women and their cultures from wider geographical regions and global cultures women from eastern Europe and their books dramas and music the Welsh gwraig llwyn a pherth woman of bush and brake the Indian mystic Mirabai Japanese women writers from the Heian period women saints from across Christian Europe and those of eleventh century Islam or late medieval Ethiopia for instance much more is to be gained in terms of our understanding of the drivers behind and expressions of medieval women s literary activities in far broader contexts This volume considers the dialogue synergies contracts and resonances emerging from such new alignments and to help a wider multidirectional development of this enquiry into women s literary cultures

Women, Dance and Parish Religion in England, 1300-1640 Lynneth Miller Renberg, 2022 A lively exploration of the medieval and early modern attitudes towards dance as the perception of dancers changed from saints dancing after Christ into cows dancing after the devil WINNER 2024 Sponsler Award for Best First Book Medieval and Renaissance Drama Society WINNER 2022 Guittard Book Award The devil s cows impudent camels or damsels animated by the devil late medieval and early modern authors used these descriptors and more to talk about dancers particularly women Yet dance was not always considered entirely sinful or connected primarily to women in some early medieval texts dancers were exhorted to dance to God arm in

arm with their neighbors and parishes were filled with danced expressions of faith What led to the transformation of dancers from saints dancing after Christ into cows dancing after the devil Drawing on the evidence from medieval and early modern sermons and in particular the narratives of the cursed carolers and the dance of Salome this book explores these changing understandings of dance as they relate to religion gender sin and community within the English parish In parishes both before and during the English Reformations dance played an integral role in creating maintaining uniting or fracturing community But as theological understandings of sacrilege sin and proper worship changed the meanings of dance and gender shifted as well Redefining dance had tangible ramifications for the men and women of the parish as new definitions of what it meant to perform one's gender collided with discourses about holiness and transgression leading to closer scrutiny and monitoring of the bodies of the faithful

Authority, Gender and Space in the Anglo-Norman World, 900-1200

Katherine Weikert, 2020 SHORTLISTED for the Society of Architectural Historians of Great Britain's Hitchcock Medallion A ground breaking interdisciplinary approach to the medieval manor pre and post Conquest *The Queenship of Mathilda of Flanders, C. 1031-1083* Laura L. Gathagan, 2025-04-08 The first full scale scholarly treatment of Mathilda of Flanders d 1083 duchess of Normandy and post Conquest queen of England In Norman England Mathilda's unique practice of queenship was robustly public It was characterized by an unapologetic embrace of both new and traditional institutions military lordship royal justice monastic foundation and ecclesiastical reform documentary initiatives and cultural networks Although she may appear only glancingly in the chronicle story sources of her day she is everywhere else governing in documents and charters articulating her identity in architecture expressing her authority through innovative custom made liturgies handing down juridical sentences and participating in the most fundamental theological issues of her day However unlike her husband William the Conqueror her impact and influence have not ensured her a place of centrality in modern memory This book redresses that imbalance Moving away from the traditional chronological approach to a woman's life its thematic chapters use the metaphor of Mathilda's body to center her actions creations and speech showing how Mathilda embodied power in a world often construed as primarily masculine It thus brings back into focus the policies she championed the strategies she pursued and the shape of her authority *Premodern Masculinities in Transition* Konrad Eisenbichler, Jacqueline Murray, 2024 Sheds new light on how masculinity was understood lived performed and viewed during a period of huge change Premodern masculinity was multivalent and dynamic a series of intersecting conflicting and mutating identities that nevertheless were distinct and recognizable to people and their societies The articles collected here examine a variety of means by which masculinity was constructed deconstructed and transformed across time geographies and cultures Articles range across the twelfth to seventeenth century from western Europe to the Volga Ural region from the Christian west to the Muslim east from Ottomans to Mongols and Persians from Baudri of Bourgueil to Blaise de Monluc while topics include the chivalric hero the effeminate man beards and spurs represented variously in literature historical documents and art Finally in

that period of great transformation that is the sixteenth century they show how masculinity moved away from the traditional and recognizable to become something different and distinct from its premodern expressions The Medieval British Literature Handbook Daniel T. Kline, 2009 One stop resource for courses in medieval literature providing students with a comprehensive guide to the historical and cultural context major texts and movements reading primary and critical texts key critics concepts and topics major critical approaches and directions of new research **In the Middle Ages** Kim M. Phillips, 2013 The Meanings of Sex Difference in the Middle Ages Joan Cadden, 1995-03-31 This book examines how scientific ideas about sex differences in the later Middle Ages participated in cultural assumptions about gender **Gender, Health, and Healing, 1250-1550** Sara Ritchey, Sharon Strocchia, 2025-10-01 This path breaking collection offers an integrative model for understanding health and healing in Europe and the Mediterranean from 1250 to 1550 By foregrounding gender as an organizing principle of healthcare the contributors challenge traditional binaries that ahistorically separate care from cure medicine from religion and domestic healing from fee for service medical exchanges The essays collected here illuminate previously hidden and undervalued forms of healthcare and varieties of body knowledge produced and transmitted outside the traditional settings of university guild and academy They draw on non traditional sources vernacular regimens oral communications religious and legal sources images and objects to reveal additional locations for producing body knowledge in households religious communities hospices and public markets Emphasizing cross confessional and multilingual exchange the essays also reveal the multiple pathways for knowledge transfer in these centuries Gender Health and Healing 1250 1550 provides a synoptic view of how gender and cross cultural exchange shaped medical theory and practice in later medieval and Renaissance societies *Medicine, Healing and Performance* Effie Gemi-Iordanou, 2014 Whether it is the binding of shattered bones or the creation of herbal remedies human agency is a central feature of the healing process Both archaeological and anthropological research has contributed much to our understanding of the performative aspects of medicine The papers contained in this volume based on a session conducted at the 2010 Theoretical Archaeology Conference take a multi disciplinary approach to the topic addressing such issues as the cultural conception of disease the impact of gender roles on healing strategies the possibilities afforded by syncretism the relationship between material culture and the body and the role played by the active agency of the sick **A Cultural History of Women in the Middle Ages** Kim M. Phillips, 2015-05-01 The medieval era has been described as the Age of Chivalry and the Age of Faith but also as the Dark Ages Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities but some scholars have claimed they enjoyed a rough and ready equality with men The contrasting figures of Eve and the Virgin Mary loom over historians interpretations of the period 1000 1500 Yet a wealth of recent historiography goes behind these conventional motifs showing how medieval women s lives were shaped by status age life stage geography and religion as well as by gender A Cultural History of Women in the Middle

Ages presents essays on medieval women's life cycle, bodies and sexuality, religion and popular beliefs, medicine and disease, public and private realms, education and work, power and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity. *Feminist Approaches to the Body in Medieval Literature* Linda Lomperis, Sarah Stanbury, 1993. Feminist Approaches to the Body in Medieval Literature forges a new link between contemporary feminist and cultural theory and medieval history and literature. The essays establish crucial historical connections between feminist theorizing about the body and specific accounts of gendered bodies in medieval texts.

Gender and Holiness Sam Riches, Sarah Salih, 2005-07-05. This collection brings together two flourishing areas of medieval scholarship: gender and religion. It examines gender-specific religious practices and contends that the pursuit of holiness can destabilise binary gender itself. Though saints may be classified as masculine or feminine, holiness may also cut across gender divisions and demand a break from normally gendered behaviour. This work of interdisciplinary cultural history includes contributions from historians, art historians and literary critics and will be of interest not only to medievalists but also to students of religion and gender in any period.
