**Medicine, Disease and the State in Ireland, 1650-1940** Greta Jones, Elizabeth Malcolm, 1999 A pioneering collection of essays aiming to open up the previously neglected area of the social history of medicine in Ireland      **That Neutral Island** Clair Wills, 2007 Where previous histories of Ireland in the war years have focused on high politics That Neutral Island mines deeper layers of experience Stories letters and diaries illuminate this small country as it suffered rationing censorship the threat of invasion and a strange detachment from the war      *Irish Imperial Networks* Barry Crosbie, 2011-11-17 This is an innovative study of the role of Ireland and the Irish in the British Empire which examines the intellectual cultural and political interconnections between nineteenth century British imperial Irish and Indian history Barry Crosbie argues that Ireland was a crucial sub imperial centre for the British Empire in South Asia that provided a significant amount of the manpower intellectual and financial capital that fuelled Britain's drive into Asia from the 1750s onwards He shows the important role that Ireland played as a centre for recruitment for the armed forces the medical and civil services and the many missionary and scientific bodies established in South Asia during the colonial period In doing so the book also reveals the important part that the Empire played in shaping Ireland's domestic institutions family life and identity in equally significant ways      **Medicine and Charity in Ireland, 1718-1851** Laurence M. Geary, 2004 In this illuminating social history of medicine and charity in Ireland over almost 150 years from 1718 until just after the Great Famine Laurence M Geary shows how illness and poverty reacted upon each other The poverty resulting from great population growth that continued until the arrival of potato blight in 1845 had a severe effect on the health of the country's population and the Famine itself caused around one million deaths from starvation and disease This was a period of great change in medical and charitable services In the eighteenth century the sick had come to be regarded as the deserving poor therefore having a better claim to public assistance than those whose poverty was the result of their own dissipation idleness or vice A network of charities evolved in Ireland to provide free medical aid to the sick poor The first voluntary hospital in Dublin opened in 1718 and Geary traces the establishment and development of voluntary hospitals and county infirmaries throughout the country These had a strong Anglican ethos and bias but after Catholic emancipation in 1829 the nepotism sectarianism and divisive politics that were rife in these organisations came under increasing scrutiny Medical practitioners saw considerable progress in the development of a regulated profession Geary describes developments in policy making and legislation culminating in the 1851 Medical Charities Act which he describes as part of a process that characterised the century and more under review in this book the unrelenting pressure on philanthropy and private medical charity and the inexorable shift from voluntarism to an embryonic system of state medicine      **Cultures of Care in Irish Medical History, 1750-1970** C.
