**Medieval Scandinavia** Birgit Sawyer, 1993 The study of Scandinavia has been and still is deeply influenced by the interpretation of its earliest history that was developed in the 19th century by political legal and literary historians archaeologists and anthropologists Scandinavia figured prominently in discussions of early medieval Europe not only as the homeland of the Vikings but also as the region in which Germanic society remained uncontaminated by Christianity and other influences longer than anywhere else In Medieval Scandinavia Birgit and Peter Sawyer question assumptions about early Scandinavian history including the supposed leading role of free and equal peasants and their position in founding churches They meticulously trace the development of Scandinavia from the early ninth century through the second and third decades of the 16th century when rulers of Scandinavia rejected the authority of the Papacy and the attempt to establish a united Scandinavian monarchy finally collapsed The authors include a discussion of medieval history writing and comment on the use of history in the 16th century and modern attitudes to medieval history which differ in various parts of Scandinavia They ultimately conclude that historic Scandinavia held greater similarities to other European regions than has been commonly supposed Birgit Sawyer is one of the founders of the biennial interdisciplinary conferences on women in medieval

*The Poetics of Commemoration*

Erin Michelle Goeres, 2015 *The Poetics of Commemoration* is a study of commemorative skaldic verse from the Viking Age It investigates how skaldic poets responded to the deaths of kings and the ways in which poetic commemoration functioned within the social and political communities of the early medieval court Beginning with the early genealogical poem *Ynglingatal* the book explores how the commemoration of a king's ancestors could be used to consolidate his political position and to provide a shared history for the community It then examines the presentation of dead kings in the poems *Eiriksmal* and *Hakonarmal* showing how poets could re cast their kings as characters of myth and legend in the afterlife This is followed by an analysis of verse in which poets use their commemoration of one king to reinforce their relationship with his successor it is shown that poetry could both help and hinder the integration of the poet into the retinue of a new king Focusing then on the

memorial poems composed for Kings Olaf Tryggvason and Olaf Haraldsson as well as for the Jarls of the Orkney Islands the book considers the tension between public and private expressions of grief It explores the strategies used by poets to negotiate the tumultuous period that followed the death of a king and to work through their own emotional responses to that loss The book demonstrates that skaldic poets engaged with the deaths of rulers in a wide variety of ways and that poetic commemoration was a particularly effective means not only of constructing a collective memory of the dead man but also of consolidating the new social identity of the community he left behind [Encyclopedia of the Arctic](#) Mark Nuttall,2005-09-23
