

A medieval manuscript illustration depicting a classroom scene. On the left, a woman in a brown robe sits at a desk, writing in a book. In the center, a woman in a dark blue robe stands and holds a large, open book with a diagram of a castle or architectural plan. To her right, another woman in a brown robe stands, holding a circular object, possibly a mirror or a small drum. In the background, other figures are visible, including a woman in a blue robe and a man in a brown robe. The scene is set in a room with a wooden floor and a wall with a patterned border.

Medieval Woman's Song Anne L. Klinck, Ann Marie Rasmussen, 2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the troubairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the troubairitz many are anonymous and often the gender of the poet is unresolvable A woman s song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters in Medieval Woman s Song bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction
