Medieval Literature in Translation Charles W. Jones, 2013-04-17 This comprehensive anthology contains exquisite cross section of Western medieval literature from Boethius and Augustine to Dante Abelard Marco Polo and Villon in masterful translations No better anthology exists Commonweal

Translating the Middle Ages Dr Charles D Wright, Dr Karen L Fresco, 2013-01-28 Drawing on approaches from literary studies history linguistics and art history and ranging from Late Antiquity to the sixteenth century this collection views translation broadly as the adaptation and transmission of cultural inheritance The essays explore translation in a variety of sources from manuscript to print culture and the creation of lexical databases Several essays look at the practice of textual translation across languages including the vernacularization of Latin literature in England France and Italy the translation of Greek and Hebrew scientific terms into Arabic and the use of Hebrew terms in anti Jewish and anti Muslim polemics Other essays examine medieval translators views and performance of translation looking at Lydgate s translation of Greek myths through mental images rendered through rhetorical figures or at how printing transformed the rhetoric of intervernacular translation of chivalric romances This collection also demonstrates translation as a key element in the construction of cultural and political identity in the *Fet des Romains* and Chester Whitsun Plays and in the papacy s efforts to compete with Byzantium by controlling the translation of Greek writings

Translation. Edited by C. W. Jones. [Selected texts.] Charles Williams JONES (Professor of English at Cornell University.), 1950 *Medieval Literature in Translation*, 1950 **Classical and Medieval Literary Criticism:**

Translations and Interpretations Alex Preminger, Osborne Bennett Hardison (Jr.), Kevin Kerrane, 1974 Medieval Literature in Translation Charles Williams Jones, 1950 The Translation of Religious Texts in the Middle Ages Domenico Pezzini, 2008 The transition from Latin to vernacular languages in the late Middle Ages and the dramatic rise of a new readership produced a huge bulk of translations particularly of religious literature in its various genres The solutions are so multifarious that they defy any attempt to outline general theories This is particularly visible when the same text is translated or rewritten at different times and in different languages or genres Through a minute analysis of texts this book aims at highlighting lexical syntactic and stylistic choices dictated not only by the source but also by new readers and patrons or by new destinations of the works Established categories such as literalness and fidelity are thus questioned and integrated with these other factors which while being more external do nonetheless impinge on the very idea of translation and consequently on its assessment Far from being a mere transfer from one language to another a medieval translation verges on a form of creative writing and as such its study becomes a fascinating investigation into the very process of textual production
