## **Mel Gibsons Passion And Philosophy The Cross The Questions The Controversy:**

**Mel Gibson's Passion and Philosophy** Jorge J. E. Gracia,2013-11-14 Mel Gibson's The Passion of the Christ has become one of the most controversial films ever made and it is already a blockbuster of cinematography Its defenders passionately regard it as one of the most moving and influential pieces of religious art ever created But its detractors argue with comparable vehemence that the violence and gore it contains its alleged anti-Semitism a particular take on the Christian message and the lack of historical and Biblical accuracy make it nothing more than a kind of political propaganda Father Thomas Rosica hailed as one of the great masterpieces of religious art but the secular humanist Paul Kurtz thinks of it as a political weapon in the hands of the religious right Film critics are divided in their judgment giving the film anywhere from no stars to five stars Regardless of what one thinks of the film however its impact both personal and social is beyond question

**The Philosopher's Index** ,2006 Vols for 1969 include a section of abstracts *The Passion Story: From Visual Representation to Social Drama* , **The Wizard of Oz and Philosophy** Randall E. Auxier,Phil Seng,2011-08-31 From the bedtime story by L Frank Baum to the classic 1939 film no story has captured the imaginations of generations of children and adults like The Wizard of Oz The story of Dorothy's journey through Oz the colorful characters places songs and dialogue have permeated popular culture around the world The contributors to this volume take a very close look at The Wizard of Oz and ask the tough questions about this wonderful tale They wonder if someone can possess a virtue without knowing it and if the realm of Oz was really the dream or if Kansas was the dream Why does water melt the Wicked Witch of the West and why does Toto seem to know what the other characters can't seem to figure out The articles included tackle these compelling questions and more encouraging readers to have discussions of their own **The Passion Story** Marcia Ann Kupfer,2008

The incidence of Passion imagery in diverse media is fundamental to the histories of Christian piety church politics and art in European and American societies At the same time the visualization and reenactment of Christ's suffering has for centuries been the principal engine generating popular perceptions of Jews and Judaism The essays collected in this book written by eminent scholars with an eye toward the nonspecialist reader broadly survey the depiction and dramatization of the Passion and consider the significance of this representational focus for both Christians and Jews This anthology provides a unique multifaceted overview of a subject of enduring importance in today's religiously pluralistic societies **BOOK JACKET** **Ecce**

**Homo** Kent L. Brintnall,2024-05-31 Images of suffering male bodies permeate Western culture from Francis Bacon's paintings and Robert Mapplethorpe's photographs to the battered heroes of action movies Drawing on perspectives from a range of disciplines including religious studies gender and queer studies psychoanalysis art history and film theory Ecce Homo explores the complex ambiguous meanings of the enduring figure of the male body in pain Acknowledging that representations of men confronting violence and pain can reinforce ideas of manly tenacity Kent L Brintnall also argues that they reveal the vulnerability of men's bodies and open them up to eroticization Locating the roots of our cultural fascination

with male pain in the crucifixion he analyzes the way narratives of Christ's death and resurrection both support and subvert cultural fantasies of masculine power and privilege Through stimulating readings of works by Georges Bataille Kaja Silverman and more Brintnall delineates the redemptive power of representations of male suffering and violence

Knowledge Communication: Transparency, Democracy, Global Governance Claudiu Mesaros, 2011-06-30 Knowledge communication is a subject intensely discussed nowadays as there is much buzz in the academia about the crisis of scientific authority Fundamental research but also popular culture special magazines traditional books find increasingly rarer common terms with new audiences like web 2.0 practitioners and various multi media consumers There are even pedigree cultured people that seem to accept no more traditional communicating supports and act conflictually towards them Some voices claim that general audiences are superficial and consumerist but on the other hand many speak about lack of openness for the general audience from scientists themselves The audience of science is therefore fundamental and all the papers in this volume touch it in many ways Another direction that will be consistent with all these papers along the book is the knowledge as a resource for cultural and regional policies tourism industry and so forth Transparency globalization regionalization have no meaning without distinctive specters of regions and local cultures that assert themselves besides traditional European countries *Ecce Homo* Kent Brintnall, 2011 Drawing on perspectives from a range of disciplines including religious studies gender and queer studies psychoanalysis art history and film theory *Ecce Homo* explores the complex ambiguous meanings of the enduring figure of the male body in pain

South, 2006 Fifteen witty thought provoking essays discuss hidden issues in James Bond's world from his carnal pleasures to his license to kill Among the lively topics explored are Bond's relation to existentialism his objectification of women and more A reference guide to all the Bond movies rounds out the book

**The Aesthetics of Violence in Contemporary Media** Gwyn Symonds, 2011-11-03 The topic of violence in the media seems as inundated as can be Countless studies and research projects have been conducted mostly to show its negative effects on society What Gwynneth Symonds proposes though takes this significant topic one step further studying the aesthetics of media violence By defining key terms like the graphic nature and authenticity of violent representations and discussing how those definitions are linked to actual violence outside the film and television screen Symonds broadens the arena of study Engagingly written *The Aesthetics of Violence in Contemporary Media* fills an important gap Symonds uses existing studies for the empirical audience reception data together with discussions of the different representations of violence to look at violence in the media as an art form in of itself By looking at *The Simpsons* *Bowling for Columbine* and *Norma Khouri's Forbidden Love* just to name a few Symonds cross analyzes violence in multiple media to see their affective role in audience reception an important aspect when discussing media The book strikes a balance between the readers need to see how theory matches what actually happens in the texts in question and the demands of a theoretical overview
