## **Transforming Academic Libraries**

Rajesh Singh, Shiva Kanaujia, Sukula, 2025-07-25 The book comprises the proceedings of the International Conference on Academic Libraries ICAL 2023 in the context of developing a vision for the next generation of libraries which will contribute to nation building and give a competitive edge to the country in becoming a knowledge economy The book provides a quality reading and exchange of ideas to all stakeholders to deliberate, dwell and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education landscape in developed and developing countries with particular reference to India by 2030 The book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models, mechanisms, policies and national and international programs for reshaping academic libraries into next generation libraries for higher education

## **Educational Challenges**

**for a New Century** Eugene Eteris, 2024-06-04 This book unravels the new reality of national educational reforms exploring optimal strategic directions for education and training Offering a particular emphasis on EU wide political guidelines it encompasses lifelong learning across all levels and it showcases the pivotal role of modern skills in education for reducing poverty, promoting gender equality and enhancing lifestyles Discussing how reformed education is vital for a robust national response the book emphasizes the social responsibility inherent in educational policy It advocates for reforms to overhaul content, enhance teaching pedagogical skills and impart socially valuable and responsible knowledge It further identifies how strategic focus on education and training holds the potential to enrich innovation, competitiveness, employability and productivity Designed to inform scholars, policymakers and professionals influencing national educational reforms amid contemporary challenges This book provides essential insights into the evolving educational landscape and its impact on societal progress

**AI and Education in China** Jeremy Knox, 2023-03-03 This book explores the relationships between artificial intelligence, AI and education in China It examines educational activity in the context of profound technological interventions, far-reaching national policy and multifaceted cultural settings By standing at the intersection of three

foundational topics AI and the recent proliferation of data driven technologies education the most foundational of our social institutions in terms of actively shaping societies and individuals and finally China which is a frequent subject for dramatic media reports about both technology and education this book offers an insightful view of the contexts that underpin the use of AI in education and promotes a more in depth understanding of China Scholars of educational technology and digital education will find this book an indispensable guide to the ways new technologies are imagined to transform the future while being firmly grounded in the past [Research Handbook on University Rankings](#) Hazelkorn, Ellen,Mihut, Georgiana,2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely

Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact [University Rankings](#) Jung Cheol Shin,Robert K. Toutkoushian,Ulrich Teichler,2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties
