Ancient China Hung-yok Ip,2022-02-24 This book examines Mohism as a movement in early China focusing on the Mohists pursuit of power Fashioning themselves as grassroots activists the Mohists hoped to impact the elite by gaining entry in its community and influencing it from within To create a less violent world they deployed strategies of persuasion and negotiation but did not discard counterviolence in their dealings with the ruling class In executing their activism the Mohists produced knowledge that allowed them to hone their nonviolent strategies as well as to mount armed resistance to aggression In addition the Mohists paid significant attention to the issue of personhood constructing a self cultivation tradition unsparing in its demands for overcoming human conditions that would impede their performance as activists This book situates Mohism in the history of nonviolent activism and in that of negotiation and conflict resolution Direct
