Accounting Education for the 21st Century Jane O. Burns, Belverd E. Needles, 2014-06-28 Accounting practice whether in business or government is more dynamic, more complex, and addresses a wider array of issues than it did as little as five years ago. Significant and rapid social, political, technological, and economic changes are taking place in the world economy, and it is increasingly recognised that accountants in all countries play a key role in the process of economic development.
