Gabriella Lojacono,Laura Ru Yun Pan,2021-08-23 Why do some luxury companies remain resilient through times of change
while others do not The reason is that these companies have unique skills to diversify their revenue generation by being
ambidextrous Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient rather
they require the ability to be ambidextrous to explore new trajectories for future growth and exploiting their iconic values In
past decades the industry has shifted from product to customer centric and forced companies to adopt new strategies and
approaches to succeed This includes the adoption of digital platforms such as ecommerce social media and mobile enabled
tools to continually elevate customer experience In addition new business models have emerged to address growing pains
particularly in inventory issues over manufacturing and sustainability Brands today are forced to adopt evolution through
innovation that is anchored by new values without compromising their DNA Based on in depth research and interviews with
CEOs from leading luxury companies Lojacono and Pan show how companies can hedge their risks and remain resilient in
