# Objectivity Polity Key Concepts In Philosophy

**Orestes Augustus Brownson**

## **Objectivity Polity Key Concepts In Philosophy:**

**Politics: Key Concepts in Philosophy** Iain MacKenzie, 2009-07-24 An introduction to political philosophy for the student encountering this key philosophical subdiscipline for the first time      Objectivity Guy Axtell, 2016-02-01 What do you find more trustworthy experts or numbers personal know how or objective facts Can science claim special authority based on the objectivity of its methods Are our ethical decisions always better when we strive to be impartial and unbiased Why should we value objectivity and is it achievable anyway These are a few of the thought provoking questions Guy Axtell asks in this comprehensive new text book employing examples from the natural and social sciences as well as philosophy This unique introduction surveys the key issues in a clear and concise way assessing the nature of objectivity and value of the demand to be impartial decision makers Moving beyond the fundamentals Axtell explores contemporary feminist and social epistemological attempts to reconstruct the concept of objectivity explains the implications of the so called science wars for philosophy and the analytical method and the ethical consequences of these debates Objectivity is an excellent introduction to one of the most exciting areas of study in philosophy and science today Students and scholars alike will value this balanced guide to a hotly contested and vitally important topic      Key Concepts in Politics and International Relations Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations      **The Saturday Review of Politics, Literature, Science and Art** ,1857      Objective Idealism, Ethics, and Politics Vittorio Hösle, 1998 Not content with merely telling us how to find a way back to objective idealism Hosle exhibits his philosophy in a wide ranging series of essays on topics ranging from the greatness and limits of Kant s practical philosophy to the moral ends and means of world population policy from moral reflection and the decay of institutions in the Enlightenment and Counter Enlightenment to a reflection on philosophical foundations of a future humanism in our world of overinformation      **The Works of Orestes A. Brownson: Politics** Orestes Augustus Brownson, 1884      *Philosophical Topics* ,1995 Vols for 1981 include the proceedings of the Southwestern Philosophical Society      **Ibadan Journal of the Social Sciences** ,2012      **Feminist Politics and Human Nature (Philosophy and Society)** Alison M. Jaggar, 1988-10-24 To find more information about Rowman and Littlefield titles please

visit [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)      **Politics** Orestes Augustus Brownson, 1884      John Locke's Two Treatises of Government Edward J. Harpham, 1992 The past thirty years have witnessed a renaissance in Lockean scholarship New work and new thinking has now recast our most basic comprehension of John Locke 1623 1704 as a political theorist and of Locke's Two Treatises of Government as a historical document This collection of essays investigates the implications of the new scholarship for our understanding of Locke's political thought and its impact upon the liberal tradition John Locke's Two Treatises of Government has long been recognized as one of the great works of political philosophy Three centuries after it was written students and scholars continue to study it for insights into the intellectual origins of the modern world and for a better understanding of such fundamental concepts as natural rights social contract limited government and the rule of law The seven essays in this volume explore various dimensions of Locke's Two Treatises The introductory essay places the new scholarship in a historical context The next four essays show how this recent literature has affected our view of particular aspects of the Two Treatises its theory of politics its religious underpinnings its theory of rationality and its conception of the relationship between politics and economics The final two essays discuss how the new scholarship has changed our understanding of the impact of the Two Treatises upon political thought in the eighteenth and late twentieth centuries Included at the end of the text is an extended secondary bibliography on John Locke's Two Treaties These essays do not seek closure Nor do they set forth a single correct interpretation Instead they offer readers a deeper appreciation of how our view of Locke's Two Treatises has changed over the last three decades and the importance of those changes in understanding of the liberal tradition A solid contribution to the literature bringing together some of the best new scholarship on Locke and reflecting the diversity breadth and depth of the current debate on both Locke and early liberalism The editor's selection clearly demonstrates there is no single orthodox reading of Locke and conveys the intellectually lively debate that pervades the field today Ronald J. Terchek author of *Locke, Smith, Mill and the Liberal Concept of Agency*      On Feminist Ethics and Politics Claudia Card, 1999 For years mainstream feminist ethics focused criticism on male supremacy Feminist philosophers in this volume adopt a less male focused stance to look closely at oppression's impact on women's agency and on women's relations with women Examining legal social and physical relationships these philosophers confront moral ambiguity moral compromise and complicity in perpetuating oppression Combining personal experience with philosophical inquiry they vividly portray their daily engagement with oppression as both victims and perpetrators They explore such issues as how pornography silences women and radical feminist politics complicity in racism Among these insightful essays Sandra Bartky argues that women share guilt for racism when they benefit from it without protest Susan Brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for rape or murder Joan Callahan examines fallout of derogatory speech directed at lesbians Virginia Held proposes carrying care into marketplaces and governments and in her introduction Claudia Card draws on Primo Levi's conception of gray zones in exploring dangers of character damage to victims of

misogyny A fitting companion to Card's highly regarded Feminist Ethics this volume interweaves observations on character political ethics violence and love into an accessible sourcebook for students It tackles some of feminism's most pressing issues and helps readers to identify and then overcome the real damage caused by oppression     **Lectures on Metaphysics and Logic: Metaphysics** Sir William Hamilton,1874     **Lectures on Metaphysics and Logic** Sir William Hamilton,1878

**Lectures on metaphysics** Sir William Hamilton,1880     Boston Studies in the Philosophy of Science Joseph Agassi,2003     The Bloomsbury Companion to Contemporary Philosophy of Medicine James A. Marcum,2022-07-28 A definitive and authoritative guide to a vibrant and growing discipline in current philosophy The Bloomsbury Companion to Contemporary Philosophy of Medicine presents an overview of the issues facing contemporary philosophy of medicine the research methods required to understand them and a trajectory for the discipline's future Written by world leaders in the discipline this companion addresses the ontological epistemic and methodological challenges facing philosophers of medicine today from the debate between evidence based and person centered medicine medical humanism and gender medicine to traditional issues such as disease health and clinical reasoning and decision making Practical and forward looking it also includes a detailed guide to research sources a glossary of key terms and an annotated bibliography as well as an introductory survey of research methods and discussion of new research directions emerging in response to the rapid changes in modern medicine Philosophy needs medicine Hillel Braude argues to become more relevant By showing how modern medicine provides philosophers with a rich source of material for investigating issues facing contemporary society The Bloomsbury Companion to Contemporary Philosophy of Medicine introduces the opportunities medicine offers philosophers together with the resources and skills required to contribute to contemporary debates and discussions

Michael Oakshott, the Ancient Greeks, and the Philosophical Study of Politics Eric Steven Kos,2007 This work addresses a question fundamental for Oakshott throughout his life What do people do when they read and discuss memorable work in the history of political thought     The Encyclopaedia Britannica ,1888     Lectures on the Philosophy of History Georg Wilhelm Friedrich Hegel,1894
