1 Peace negotiations are one of the most common ways of ending conflict.

Locations of peace processes around the world

Conflicts are also ended by one side 'winning' the conflict but even then negotiations and agreements may be needed to deal with its aftermath.

3 Most of these agreements deal with conflict within states. Some deal with conflicts between states.

Breakdown of agreements by inter-state and intra-state

5 Increasingly conflict can be multi-level and requires multi-leveled peace processes

Peace processes are becoming more complex, needing agreements that are: local; national; international.

Breakdown of agreement type by inter-state, intra-state and inter-intra-state

Many local agreements have been signed in: Kenya, Somalia, South Sudan, Libya, Yemen and Syria.

2 A 'handshake moment' of a peace agreement between the main warring parties receives attention, but is only one moment in a longer peace process.

Processes seldom unfold in a straightforward line from violence to peace. Often talks are started, breakdown and restart.

4 If we count peace agreements, since 1990, there have been over 1500 signed in around 150 different peace processes over 35 years.

These include agreements:

to establish ceasefire

to get into talks

about how to resolve the conflict

to implement previous agreements

The number of agreements from each stage in an average peace process

## **Peace Processes**

**Comparing Peace Processes** Alpaslan Özerdem, Roger Mac Ginty, 2019-03-18 This book offers a comparative survey of 18 contemporary peace processes conducted by leading international scholars. There is no standard model of peace processes and all will vary according to the context type of conflict, timing, national and global economic climate and factors like natural disasters. Therefore, making comparisons between peace processes is difficult but it is beneficial indeed imperative and is the principal motivation behind this volume. What works in one context may not work in another but it can be modified and adapted to fit another context. The book is structured to maximise comparison between processes and the case studies chosen are topical and span the major regions of the world. The concluding chapter systematically compares the case studies around 11 variables that cover the conflict context, peace process procedures, the responsiveness of the peace process to demands and levels of participation and inclusion. Each peace process is then given a numeric score according to each of these variables and the book thereby reaches judgements on whether each case can be termed a success or a failure. This book will be essential reading for students of peace studies, conflict resolution, war and conflict studies, security studies and IR.

**Peace Processes** John D. Brewer, 2010-03-08 Peace processes are mostly very fragile. This engagingly written book takes a bold new approach to the topic by beginning from the premise that sociology can identify those factors that help to stabilize them. The book draws a distinction between the political and social dimensions of peace processes, arguing that each is dependent on the other. Consideration of the social peace process neglected in conventional treatments of the subject is made central to this volume. While complementing current approaches that emphasize institutional reform in politics, law and economics, it pays due attention to sociological factors such as gender, civil society, religion, the deconstruction of violent masculinities, restorative justice, emotions, hope, forgiveness, truth, recovery, social memory and public victimhood. These important themes are fully illustrated with examples and in-depth case studies from across the globe. The book locates itself within the growing debate about the positive impact of global civil society on peace and identifies the new forms of peace work engendered by globalization. It will be essential reading for students and scholars of peace studies, in politics, international relations and sociology departments.

**Contemporary Peacemaking** Roger Mac Ginty, Anthony Wanis-St. John, 2022-02-17 This fully updated third edition of *Contemporary Peacemaking* is a state of the art overview of peacemaking in relation to contemporary civil wars. It examines best and worst practice in relation to peace processes and peace accords. The contributing authors are a mix of leading academics and practitioners with expert knowledge of a wide array of cases and techniques. The book provides a mix of theory and concept building along with insights into ongoing cases of peace processes and post-accord peacebuilding. The chapters make clear that peacemaking is a dynamic field with new practices in peacemaking, changes to the international peace support architecture and greater awareness of key issues such as gender and development after peace accords. The book is mindful of the intersection between top down and bottom up

approaches to peace and how formal and institutionalized peace accords need to be lived and enacted by communities on the ground **Contemporary Peacemaking** J. Darby, Roger Mac Ginty, 2008-06-11 Contemporary Peacemaking draws on recent experience to identify and explore the essential components of peace processes. The book is organized around five key themes in peacemaking: planning for peace, negotiations, violence, peace processes, peace accords, and peace accord implementation and post-war reconstruction. **The Effects of Violence on Peace Processes** John P. Darby, 2001 As recent events demonstrate, violence especially ethnic violence is exceptionally hard to extinguish. Ceasefires almost never bring a complete end to the killing, and formal peace agreements are more often than not undone by men unwilling to forsake the gun. As John Darby argues in this original, holistic, and comparative treatment of the subject, even when political violence is ended by a ceasefire, it reappears in other forms to threaten the evolving peace process. Unlike most scholars, Darby focuses on peace processes that have involved actors other than the United Nations. He analyzes the nature and impact of four interrelated kinds of violence: violence by the state, violence by militants, violence in the community, and the emergence of new violence-related issues during negotiations. For each kind of violence, the author draws out the policy implications, suggesting how the guardians of the peace process can defeat would-be spoilers and change a culture of violence. The volume concludes by distilling five propositions on the relationship between violence and peace processes. Insightful, concise, and highly readable, the book will engage the scholar, inspire the policymaker, and inform the student. In-depth profiles of the five featured cases—Northern Ireland, South Africa, Sri Lanka, Israel, Palestine, and the Basque country—provide ample background and enrich understanding. **Contemporary Peace Making** J. Darby, R. Mac Ginty, 2002-12-19

Contemporary Peace Making draws on recent experience to identify and explore the essential components of peace processes. Each chapter examines a different element in recent peace processes. The collection is organized around five main themes: planning for peace during periods of violence, the process of negotiations, including pre-negotiation, the effects of violence on peace processes, peace accords, constitutional and political options, and securing the settlement and building the peace.

**Advanced Introduction to the Sociology of Peace Processes** Brewer, John D., 2022-02-18 This Advanced Introduction establishes the study of peace processes as part of the mainstream of sociology, a position consistent with the new moral re-enchantment of the social sciences. It advances a sociological view of peace that goes beyond vague notions of reconciliation to constitute the restoration of moral sensibility from which flows social solidarity, sociability, and social justice. These concepts form the basis for a moral framework outlining what peace means sociologically. **Inclusive Peace Processes are Key to Ending Violent Conflict** Colette Rausch, Tina Luu, 2017 The number of armed conflicts reached a post-Cold War peak in 2015, exacting a terrible death toll and forcing millions to flee. One key to reaching a sustainable peace is inclusivity, which can knit together a frayed social fabric and give all groups a stake in transforming their country. Conflicts have many levels, and peacebuilders need to create paths between them, creating opportunities for involvement and linking issues and groups.

Various peacebuilding strands of issues or activities such as building trust and consulting with affected groups can be woven together to strengthen a peace process Enabling marginalized groups to influence the content of a peace process increases the chances of a sustainable peace Peacebuilders are sharpening their understanding of how to achieve inclusivity but knowledge gaps remain Multidisciplinary efforts are required

### Beyond the "add women and stir" approach

Dismas Ndayikenguru,2019-11-14 Academic Paper from the year 2018 in the subject Politics Topic Peace and Conflict Security Trinity College Dublin The University of Dublin Irish School of Ecumenics course Gender War and Peace EM 7436 language English abstract The author of this work attempts to demonstrate that cultural gender inequalities and discrimination hinder woman involvement in peace processes and that woman involvement will always be limited unless these cultural norms are changed The work begins with the debate on the rationale for adding women in peace processes Then the author attempts to explain how peace processes can lead to social transformation To conclude the author illustrates the underpinnings of the arguments made in this work by exploring the experiences of women both in formal peace talks and post conflict contexts in

Burundi and Afghanistan Concerted efforts pushing for the inclusion of women in all levels of the formal peace processes initiatives have resulted in the adoption of the United Nations Security Council Resolution 1325 on Women and Peace and Security in 2000 Though women remain underrepresented the UNSCR 1325 has contributed in promoting a gender sensitive approach to peace processes and slightly increased the number of female participants in peace processes However many scholars have argued that in most cases the implementation of the UNSCR 1325 has just been the trend to apply the add women and stir approach which assumes that solely the presence of women in peace processes is not only necessary but also sufficient to elicit favourable peace outcomes for both men and women

**Jacket** **The Management of Peace Processes** J. Darby,R. Mac Ginty,2000-06-06 The Management of Peace Processes is the result of the monitoring of five peace processes Israel Palestine South Africa Basque Country Sri Lanka and Northern Ireland for more than two years The project was conducted by academic partners based in five areas Based on interviews with key players in all five peace processes it identifies those factors which facilitate or block political movement in deeply divided societies It highlights issues of negotiation and constitutional change political violence economics external influences public opinion and symbolism and challenges a number of accepted notions about peace processes

**The Political Economy of Civil War and UN Peace Operations** Mats Berdal,Jake Sherman,2023-03-31 This book examines the operational and political challenges facing UN peace operations deployed in countries where civil war and protracted violence have given rise to the complex and distinctive political economies of conflict The volume explores the nature and impact of such political economies informal systems of power and influence formed by the interaction of local national and region wide war economies with the political agendas of conflict actors on the course of UN peace operations It focuses in detail on the UN's long running peace operations in the Democratic Republic of Congo South Sudan Afghanistan Sierra Leone Mali and Somalia The book is

centrally concerned with the interaction of UN missions with the power structures and local conflict dynamics that shape individual mission settings and the challenges these pose for mediation protection of civilians and other tasks It also offers a critical assessment of the various ways in which the UN system from its headquarters in New York to the field has confronted the policy challenges posed by political economies of conflict affected states societies and regions It advances a pragmatic set of policy recommendations aimed at improving the UN's ability to confront predatory and exploitative war economies At the same time the volume makes it clear that political and institutional obstacles to more effective UN action are certain to remain profound and are unlikely ever to be fully overcome let alone eradicated Despite making some progress since the 1990s to better understand the political economy of civil wars the UN has struggled with how to tackle informal networks of power and their consequences for efforts to end wars The book will be of special interest to students of war and conflict

Natalie Ralph,2017-11-22 Peacemaking and the Extractive Industries addresses a significant gap in research on the political and diplomatic role of multinational corporations in peace processes in intrastate conflict Corporate Peacemaking The author focuses on corporations in the oil and mining sectors supporting or participating in peace negotiations and mediation The chapters explore national level peace processes as well as those at community and global levels While the focus is on extractive companies the findings are valuable to companies from all industries looking at peace related processes This ground breaking book gives a comprehensive picture of how Corporate Peacemaking currently works how it can be developed and implemented and how it is likely to impact global governance and corporate culture in the future The book demonstrates that Corporate Peacemaking has the potential to be a powerful element in international governance and peace efforts and Ralph shows through the business case that companies as well as communities will benefit Ralph presents a new framework for Corporate Peace that will assist companies from all sectors in countries experiencing violent conflict in addition to instability human rights abuses and poor governance Based on rigorous academic research with practical case studies it is essential reading for practitioners academics policy makers and NGOs
