Penal Systems A Comparative Approach:

Penal Systems Michael Cavadino, James Dignan, 2005-10-26 Cavadino and Dignan's *Penal Systems A Comparative Approach* looks across national boundaries to see how penal systems differ and why. It is hands down the most comprehensive and up to date book on the subject and should become a staple textbook for use in law and social science courses on comparative penal policy and practice. Michael H Tonry, University of Minnesota. This book is an important addition to the literature on punishment. It is a highly readable and very well researched overview of some of the major differences in punitiveness between neo liberal corporatist and social democratic countries. This is a major contribution to comparative penology by two of the leading authors in this field. Alison Liebling, Director of the Prisons Research Centre, UK. A major and seminal work. David Downes, Professor Emeritus at the London School of Economics. *Penal Systems A Comparative Approach* is a comprehensive and original introduction to the comparative study of punishment. Analysing twelve countries, Cavadino and Dignan offer an integrated and theoretically rigorous approach to comparative penology. They draw upon material provided by a team of eminent penologists to produce an important and highly readable contribution to scholarship in this area. Early chapters introduce the reader to comparative penology, set out the theoretical framework and consider whether there is currently a global penal crisis. Each country is then discussed in turn. Chapters on comparative youth justice and the privatization of prisons follow. Comparisons between countries are drawn within each chapter, giving the reader a synoptic and truly comparative vision of penality in different jurisdictions.

Prison Chaplains on the Beat in US and UK Prisons George Walters-Sleyon, PhD, 2021-08-10 This book is about prison chaplains and their care for aging, dying and dead prisoners in the penal systems of the United States and the United Kingdom. Since the 18th century, prison chaplains have served as priests and pastoral caregivers to prisoners and prison staff. The book traces the historical roles of prison chaplains in developing the managerial aspects of prisons, focusing on their presence, best practices and ways of conceptualizing their prison experiences in the modern prison cultures of the United States and the United Kingdom. While prison chaplains have historically provided care to prisoners, prison chaplaincy after 1970 has transformed. This book shows how prison chaplains face new challenges in caring for prisoners under the penal policies and practices of mass incarceration. *Prison Chaplains on the Beat* demonstrates how prison chaplains have conceptualized the practice of providing pastoral care to aging, dying and dead prisoners in the United States and the United Kingdom through a person centered approach. The book is both theoretical and empirical. The empirical aspect focuses on the prison experiences of 31 prison chaplains from the United States and Scotland. The theoretical aspect provides a conceptual understanding of the multi faceted roles of prison chaplains in the United States, Scotland and England and Wales. As a research in comparative criminal justice, it argues that prison chaplains are fundamentally indispensable to prison management practices and managerial theories in the United States, Scotland and England and Wales post 1970. Powerfully combines historical and empirical approaches to religion in prisons.

Brings new understanding of the pastoral and prophetic roles of prison chaplains and launches a searing ethical critique of mass incarceration The comparisons between the United States and Britain are instructive for current and future prison policy in both locations Dr David Grumett School of Divinity University of Edinburgh UK George Walters Sleyon s Prison Chaplains on the Beat offers a new perspective on the predicaments of contemporary penal politics and practices especially their racialized harms Chaplains are both observers of and participants in the contemporary prison scene and their perspective is a special but hitherto under reported one By reconsidering our carceral condition through this lens Walters Sleyon illuminatingly re states the moral and political challenges of mass incarceration Dr Richard Sparks School of Law University of Edinburgh UK *The Routledge Handbook of European Criminology* Sophie Body-Gendrot, Mike Hough, Klara Kerecsi, René Lévy, Sonja Snacken, 2013-08-15 This new book brings together some of the leading criminologists across Europe to showcase the best of European criminology This Handbook aims to reflect the range and depth of current work in Europe and to counterbalance the impact of the sometimes insular and ethnocentric Anglo American criminological tradition The end product is a collection of twenty eight chapters illustrating a truly comparative and interdisciplinary European criminology The editors have assembled a cast of leading voices to reflect on differences and commonalities elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe After the editors introduction the book is organised in three parts five chapters offering historical theoretical and policy oriented overviews of European issues in crime and crime control seven chapters looking at different dimensions of crime in Europe including crime trends state crime gender and crime and urban safety fifteen chapters examining the variety of institutional responses exploring issues such as policing juvenile justice punishment green crime and the role of the victim This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe It will also be a valuable teaching resource especially at postgraduate level as well as an important reference point for researchers and scholars of criminology across Europe The Penal System Michael Cavadino, James Dignan, George Mair, Jamie Bennett, 2019-12-02 Now in its Sixth Edition this book remains the most comprehensive and authoritative on the penal system providing students with an incisive critical account of the punitive managerial and humanitarian approaches to criminal justice Fully updated to cover the most recent changes in the Criminal Justice System the new edition Outlines contemporary policy debates on sentencing staffing youth custody and overcrowding Explores growing inequalities in the criminal justice system including issues of race religion gender and sexuality with new content on faith and transgender prisoners Considers the impact of privatisation on the probation service Discusses the most recent debates around the parole process including high profile cases and attempts at reform The book is supported by online resources for lecturers and students including chapter PowerPoints sample syllabus summaries of key legislative acts bills and official reports a list of recommended further reading for each chapter and links to important Penal

McNeill, K. Beyens, 2013-11-25 Offender supervision in Europe has developed rapidly in scale distribution and intensity in recent years However the emergence of mass supervision in the community has largely escaped the attention of legal scholars and social scientists more concerned with the mass incarceration reflected in prison growth As well as representing an important analytical lacuna for penology in general and comparative criminal justice in particular the neglect of supervision means that research has not delivered the knowledge that is urgently required to engage with political policy and practice communities grappling with delivering justice efficiently and effectively in fiscally straitened times and with the challenges of communicating the meaning legitimacy and utility of supervision to an insecure public This book reports the
