With this goal in mind, the text is written in rapid fire question answer format. The student receives immediate gratification with a correct answer. Questions themselves often contain a pearl reinforced in association with the question answer. Additional hooks are often attached to the answer in various forms including mnemonics, evoked visual imagery, repetition, and humour. Additional information not requested in the question may be included in the answer. The same information is often sought in several different questions. Emphasis has been placed on evoking both trivia and key facts that are easily overlooked, are quickly forgotten, and yet somehow always seem to appear on Microbiology exams. *American Book Publishing Record*, 2005.
