

MICROECONOMICS

Microeconomics is the study of how individuals and businesses make decisions to allocate limited resources. It focuses on the behavior of individual consumers, producers, and markets, and how they interact to determine prices and quantities. Microeconomics also examines the effects of government policies, such as taxes and subsidies, on these markets.

Microeconomics Fourth Edition Hubbard:

Agribusiness Management Jay T. Akridge, John C. Foltz, Elizabeth A. Yeager, Brady E. Brewer, Trey Malone, 2025-09-30 This seventh edition of Agribusiness Management provides students and managers with a fundamental understanding of the key concepts needed to successfully manage food and agribusinesses in a rapidly changing global high tech consumer oriented and uncertain world. This leading text has been restructured and revised for this edition to make it even more relevant and accessible. Offering a contemporary focus that reflects the issues that agribusiness managers face today and are likely to face tomorrow, the book presents conceptual material in a pragmatic way with illustrations and examples that will help the reader understand how a specific concept works in practice. Its decision making emphasis provides contemporary tools that readers will find useful when making decisions in the current and future business environment. Examples and case studies are used extensively including new vignettes throughout the text to help students understand how to apply the material in an industry setting. This seventh edition includes a new chapter on strategic management as well as more emphasis on supply chain management and new agricultural technology and Artificial Intelligence AI and its use by agribusiness firms. The book is supported by a suite of digital learning resources featuring PowerPoint slides and test bank questions for each chapter. It is an ideal text for all courses on management in the agribusiness industry.
