Team Building

William G. Dyer,1995 One of the major developments in the field of

organization redesign has been the emergence of self directed work teams Team Building explains how teams are most successful when the team becomes part of the culture and structure or systems of the organization Team building is a human

process that involves human feelings attitudes and actions This book is written for managers and human resource

professionals who want to develop a more systematic program of team building in their organization or work unit William G Dyer has laid the groundwork for all subsequent books in the field of team building The first edition of this book was the

pioneer text on team building this third edition brings the whole field of team building up to date The book discusses the

major new trends including self directed work teams total quality initiatives and cross cultural teams and reviews the

strengths and weaknesses of these new developments in team building Throughout the book Dr Dyer emphasizes the degree

of commitment that managers and members of work teams must bring to the team building process For team building to succeed managers must adopt a true team philosophy take responsibility for team building work and become involved on a personal level Key executives also must become involved by ensuring that the organization's culture and especially its review and reward systems support the goal of team building
