Normal Blood Test Scores Aren't Good Enough:

Normal Blood Test Scores Aren't Good Enough! Ellie Cullen, 2002 *No More Little Old Ladies!* Barbara Morris, 2009-02
Little Old Ladies don't just happen they are created by default. The road to little old lady hood starts early in mid life but if a well thought out plan of prevention is in place midlife women can keep and improve their current level of youthful attributes for at least another 25 years. One reason most women don't achieve their desired degree of agelessness is because the traditional retirement oriented senior culture does not support growth and productivity. The negative power of the senior culture is something few women are aware of and nobody talks about it until now. This aging influence in the lives of older women has finally been outed and you must discover what it's all about and how to avoid it in *No More Little Old Ladies*.

30-Day Natural Hormone Plan Erika Schwartz, 2007-10-15. An expert in natural hormone supplementation presents a comprehensive program to help women feel younger without hormone replacement therapy. The symptoms of hormone imbalance are all too familiar for the millions of women who suffer from hot flashes, depression, night sweats, insomnia, mood swings, and loss of libido on a daily basis. Many of these women turn to synthetic hormone replacement therapy commonly known as HRT for relief. But HRT can lead to other serious health issues including a higher risk of breast cancer, heart disease, and stroke. Now Dr. Erika Schwartz presents an effective and safe alternative to HRT: a proven 30 day program that includes a natural hormone regimen and dietary advice as well as information on exercise, vitamins, and supplements. The 30 Day Natural Hormone Plan can help women alleviate symptoms of hormone imbalance and keep them looking and feeling young.
