North Dakota Postcards 1900 1930 The Postcard History Series:

North Dakota Postcards, 1900-1930 Larry Aasen, 1999 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication and many of the postcards produced during this golden age can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores across the country survive as telling reminders of an important era in America's history This fascinating new history of Nashville Tennessee showcases more than two hundred of the best vintage postcards available *South Dakota, 1900-1930, in Vintage Postcards* Richard L. Popp, 2001 Postcards provide an easy way to go back in time to the early days of South Dakota to see what the place looked like to catch a glimpse of how people saw themselves to begin to understand what has changed and what remains constant This is the first book to focus entirely on historical postcards from South Dakota including images from more than 50 counties and 100 different communities The book also explores how postcard images helped create and perpetuate myths about the Wild West and how South Dakotans accepted and adapted those myths Included are scenes of farming ranching industry and small town life from the early 1900s While postcards pictured busy streets town festivals and new civic improvements they also captured periodic disasters natural and man made Postcards show the development of important tourist sites from their earliest years including the Black Hills Badlands Corn Palace and Mount Rushmore Residents and tourists alike will enjoy seeing South Dakota before interstates and billboards took over **Black Hills and Badlands in Vintage Postcards** Richard L. Popp, 2002 As soon as postcards appeared for sale in the early 1900s Black Hills residents and visitors began sending them to friends and family across the country The images and messages on these cards now form a historical record of the towns mines ranches and people that made up the Black Hills and Badlands region The postcard images chosen for this book show the development of the Black Hills and Badlands from the gold rush to modern times Long time residents will enjoy seeing what familiar places looked like in bygone days while newcomers can learn how today's tourist attractions developed over time including the Hot Springs mineral baths Wind Cave Custer State Park Badlands National Park Mount Rushmore and Crazy Horse Mountain Memorial *Plains Talk*, 2001 **Subject Guide to Books in Print**, 1991 **Forthcoming Books** Rose Army, 2001-08 *Main Street, North Dakota in Vintage Postcards* Geneva Roth Olstad, 2000 The postcard has always been a popular form of communication but as we look back it also serves as a valuable historical document The views of our past offer us a unique insight into the people and places that came before us Main Street North Dakota offers us an intriguing look at that uniquely American street where business was transacted goods purchased and information and stories shared Some of the towns collected here have disappeared off the map but the majority have survived and continue to grow and prosper *Bibliographic Guide to Art and Architecture* New York Public Library. Art and Architecture Division, 1980

Books in Print ,1982 **As We Were** Rosamond B. Vaule,2004 Today no one seriously doubts the value both aesthetic and historic of the ubiquitous American photographic postcard This was the medium that really brought photography to the masses these cards were affordable they were topical and they could be sent for a penny anywhere in the country The variety of imagery much of it developed anonymously in small studios much of it taken by inspired amateurs these were the days when anyone could and many folks did own a camera displays America in all its variety and vitality Most postcards were mass produced and printed in ink by the collotype or halftone process But a few were original photographic prints exposed directly from glass plates or film negatives Known as real photos these were real photographs aristocrats of the genre and spectacular examples of vernacular photography In this charming and scholarly book Vaule selects the best of them from all over the country addressing their social and historical contexts explaining the mysteries of their manufacture and dissemination and describing the characteristics and identities of their makers many of whose names and studios are listed in the book But without doubt it is the images themselves that still hold us storefronts and townships frisky children and sober adults air ships and barn raisings Over one hundred are reproduced here each in fine line duotone each as fascinating and compelling today as when first fixed on paper **Postcards [c. 1906-1908]** ,1906 *Vintage Postcards of New York* Silvia Lucchini,Stefano Lucchini,2016-09-13 A delightful collection of vintage and antique postcards of New York This book presents a rare collection of more than 100 of the best vintage New York City postcards providing a snapshot of how much the Big Apple has changed and how much has remained recognizably the same During the early years of the twentieth century postcard photographers traveled the length and breadth of Manhattan snapping images and documenting landmarks and important new architectural masterpieces such as the Singer Building 1908 the Metropolitan Life Insurance Company Tower 1909 and the Woolworth Building 1913 each of which succeeded the other as the world s tallest building at the time of their respective completion Also celebrated were the engineering feats of the Brooklyn Bridge and the elevated trains and early subway as well as popular amusements such as the original Madison Square Garden and the Hippodrome which occupied an entire city block at Longacre Square since renamed Times Square Scenic views of the city from a distance were equally popular and in fact led to the coining of the word skyline in 1896 This charming keepsake volume is the perfect souvenir for architecture and history buffs and makes a wonderful gift *Postcards from 1900* Dick Ivy,York County Historical Committee (Va.),1996 **American Holiday Postcards, 1905-1915** Daniel Gifford,2013-09-05 In the early 20th century postcards were one of the most important and popular expressions of holiday sentiment in American culture Millions of such postcards circulated among networks of community and kin as part of a larger American postcard craze However their uses and meanings were far from universal This book argues that holiday postcards circulated primarily among rural and small town Northern white women with Anglo Saxon and Germanic heritages Through analysis of a broad range of sources Daniel Gifford recreates the history of postcards to account for these specific audiences and reconsiders the postcard

phenomenon as an image based conversation among exclusive groups of Americans A variety of narratives are thus revealed the debates generated by the Country Life Movement the empowering manifestations of the New Woman the civic privileges of whiteness and the role of emerging technologies From Santa Claus to Easter bunnies flag waving turkeys to gun toting cupids holiday postcards at first seem to be amusing expressions of a halcyon past Yet with knowledge of audience and historical conflicts this book demonstrates how the postcard images reveal deep divides at the height of the Progressive Era
