*The Impact of Political Uncertainty on Asset Prices: The Case of the United Kingdom's EU Membership Referendum* Joseph Hanna, Mr. Niels-Jakob H Hansen, Ms. Margaux MacDonald, 2021-02-05 How did expectations of the outcome of the United Kingdom's UK referendum on European Union EU membership in 2016 affect prices in financial markets? We study this using high frequency data from betting and financial markets. We find that a one percentage point increase in the probability of 'Leave' result caused British stocks FTSE All Share to decline by 0.004 percent and the Pound to depreciate by 0.006 percent against the euro. We find negative and significant effects for most sub sectors and negative spill overs to other EU member countries. We show that the differential impact across sectors and countries can be explained by differences in the trade exposures.

**How to Find a Black Cat in a Coal Cellar** Joe Buchdahl, 2013-07-01 How do we know if we can beat the bookmaker? That's easy just look at our bank balance. This book examines the techniques available to answer that question to identify those qualities and to help the reader find value for money in an industry that appears to be largely built on trust and the influence of chance to uncover the truth about sports tipsters and ultimately how to find the best tipsters the Black Cats.
