Pincus, 2024-12-17 A revolution has been quietly taking place in academic psychology, economics, neuroscience, marketing, and business. In study after study, emotional forces massively outweigh human rationality in determining our actual choices and actions. This insight has reshaped both science and industry as its power is harnessed for commercial ends. Those of us who are engaged in the nexus of neuroscience, psychology, and human potential have an obligation to raise awareness of these discoveries and, more importantly, to use them to actually improve people's lives. AgileBrain is based on decades of psychological research conducted by the author and others published in peer-reviewed academic journals. It begins with the discovery of the first principles of all human motivation. Motivation is fundamentally about change. These principles can be phrased as two questions: Where in your life do you wish to make a change? To answer this question, we can choose from four life domains: the Self, the Social, the Material, and the Spiritual. Note that these represent pairs of opposites: Self vs. Social; Material vs. Spiritual. What kind of change do you wish to make? To answer this question, we can choose from Aristotle's three levels of existence: foundational being, experiential doing, and aspirational having. The answers to these two questions form a Periodic Table of the Elements for human motivations, in the form of a three by four matrix. Because there are no other possible life domains or levels of aspiration, the reader can have confidence that every possible human motivation is accounted for. A key takeaway is that all twelve emotional needs are

operating and directing us all the time and that a key to a happy actualized life is to pursue fulfillment of needs in a balanced way which avoids serious problems associated with unbalanced need fulfillment A recurring theme in The Emotionally Agile Brain is the value of distinguishing between authentic need fulfillment and the superficial inauthentic substitutes offered by our consumer culture After analyzing motivational data from hundreds of thousands of individuals and consulting to scores of Fortune 500 clients author J D Pincus explains it this way Everyone has a unique fingerprint of emotional needs at any given moment in time Becoming aware of that motivational state is a profound revelation for most people It cuts right through the noise and distractions of life and frees them to pursue what they really want **Big Dating Energy** Jeff Guenther,Kate Happ,2024-07-09 Eight Rules of Love by Jay Shetty meets Tinxs The Shift for making modern relationships work for you from a licensed professional therapist with two decades of experience and nearly 4 million followers on social media as therapyjeff Dating these days is hard and no one understands that more than licensed therapist Jeff Guenther Whether you re looking for marriage or just a fling exploring your sexuality or discovering your attachment style or just trying to figure out which app is most worth your time Jeff meets you exactly where you are it s no surprise that millions of viewers have found comfort in his posts With humor empathy and an acknowledgment of the obstacles to finding healthy relationships he has become the dating whisperer for the social media age Dating in the super online post covid world is not for the weak and people are confused and looking for guidance In the vein of Unf ck Yourself The Love Prescription and How to Not Die Alone Big Dating Energy is a funny modern self help title that tackles the opaque world of dating empowering the reader with straight talk and an emphasis on authenticity Covering everything from first dates to red flags ideal partner checklists to knowing when and how to end things and even an exploration of the people and things you can blame for why your dating life hasn t worked out so far Big Dating Energy harnesses the charm and easy to use advice that nearly 4 million followers come to the therapyjeff platform for daily It will set you up to not only succeed at dating but maybe even enjoy it along the way
