### **Impact and implications of AI methods and tools for the future of education** Kingsley Okoye, Samira

Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07 The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development oriented projects and creation mobilization of technological initiatives on how to re-imagine education and operationalize the use of digital technologies for its purpose the Digitized Education. Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals SDGs particularly the SDG4 that promotes quality of education.

**Last Week in End Times Cinema** A. S. Hamrah, 2025-11-25 An almanac of every bad thing that happened in the film industry from March 2024 to March 2025. From A. S. Hamrah the film critic at n1 and the author of *The Earth Dies Streaming Film Writing 2002-2018* comes this unique archive of unfortunate movie bulletins compiled for his weekly newsletter *Last Week in End Times Cinema* and presented here in digest form. These customized batches of misfortune and upheaval record a full year of wrong thinking, bad decisions, and man-made disasters from the world of filmmaking. Set against the backdrop of the crazed push for AI, the wildfires in Los Angeles, and the reelection of Donald Trump, the general disaster of current commercial cinema in the age of streaming platforms, theater closures, and the dead-end reliance on IP franchising becomes apparent. As the Hollywood film industry plunged into near irrelevance, these weekly roundups tracked every passing mistake, every easily avoided blunder, every up-to-the-minute example of unnecessary garbage as it emerged from the content mills of our newly tech-based movie business. Presented without commentary, footnotes, or links inspired by *Flix on Novels in Three Lines* and the *Coffee News*, this compilation lists filmland items in naked form, stripped of any ameliorating showbiz happy talk. As Fred Allen once wrote about Hollywood beneath all that phony tinsel there is real tinsel. Here it is all the shiny nothingness of an industry gone astray.

**Califailure Steve** Hilton, 2025-03-25 Steve Hilton tackles the literally burning question: What will it take to save California? California is a model for the nation. Governor Gavin Newsom keeps telling us: We're following a formula for success. In *Califailure*, Hilton compellingly captures exactly where this far-left experiment has gone fundamentally catastrophically wrong. Great cities like Los Angeles, San Francisco, and Oakland collapsed into squalor as crime and homelessness were allowed to explode. The state that used to pride itself as the home of innovation and opportunity became the state with the worst rate of poverty, highest unemployment, and most hostile business climate in America, as well as the highest taxes. How did this happen, and what is needed to turn things around? Hilton identifies the nine key pathologies from Elitism to Cronyism to Narcissism that define the ideology at the heart of California's decline. And he lays out a comprehensive program of policy reform, *CaliFuture*, that

will restore the Golden State to its rightful place as the very best of America Californians are starting to wake up from the long and fitful nightmare In 2024 far left politicians were removed from leadership positions in San Francisco and Los Angeles Proposition 36 which in the words of its proponents makes crime illegal again passed overwhelmingly with majorities in every county Califailure is what happens when Democrats get everything they want Increasingly it's not what Californians want This book explains why America must reject it too [The Dopamine Brain](#) Anastasia Hronis,2024-09-03 Have you ever felt like you're lacking control over certain habits Are you curious about the neuroscience behind addictive behaviours What if you could understand how the brain works and use that knowledge to regain control over your habits and lead a more fulfilling life Sex shopping eating social media drugs and gambling are just some of the things that can trigger a release of dopamine a neurotransmitter in the brain that is involved in the brain's reward system The overindulgence of certain pursuits can disrupt the level of dopamine in our brain which can steer us towards habits that do not align with our core values Fortunately The Dopamine Brain offers a clear and practical way to help people find balance and harmony in their lives The book is divided into three parts that weave in the latest research in neuroscience and psychology case studies and reflective questions The first part delves into the inner workings of the brain helping you understand how dopamine works and identify activities that dopamine might have you hooked on This next part encourages you to explore and reflect on your core values and building a life that is meaningful enduring and satisfying The last part will help you to make the change with the help of sound psychological techniques By the end of this guide Dr Hronis will help you feel empowered to make both pleasurable and purposeful choices leading to a full rich and meaningful life
