Click the **More** button and select what types of differences to look for (optional). Click **OK**.

Add Line Numbers: Click the **Layout** tab, click the **Line Numbers** button, and select an option.

Types of Form Controls

Different types of form controls allow a user to enter different types of data into a form.

Rich Text allows users to enter text that can be formatted with different fonts and font styles.

Plain Text allows users to enter text, but not to format that text.

Picture allows the user to add a picture from their computer or an online location to the form.

Check Box places a form with a check box that the user can check or uncheck.

Combo Box adds a list with a text box, where users can choose an option or enter their own.

Drop-Down List adds a list with several options that a user can choose from.

Date Picker lets the user choose a date from a calendar.

Repeating Section contains other types of content controls and repeats as many times as you need it.

Legacy Types of content controls were used in older versions of Word. You can still use them in a Word 97-2003 document.
